The unit was first commissioned in FY 2023–24 under Job No. 22156C for M/s JK Lakshmi Cement. Owing to its performance and cost-effectiveness, a repeat order was received under Job No. 24049S from the same client.<br><b>Benefits:</b> <ul style="list-style-type: none"> <li>Reduction in manufacturing cycle time by 1 month</li> <li>Cost savings of ₹2.0 lakhs per set of bearing housing.</li> </ul> <b>b) Technology Advancement – Thick Seal Ring Optimization:</b><br>Traditionally, thick seal rings were fabricated through cutting, bending, and radiographic welding, involving high man-hours and extended timelines. By switching to single-piece forged thick seal rings sourced from external vendors, the Division has eliminated complex fabrication steps and achieved significant cost and time savings.<br><b>c) Hydel Power and Natural Ventilation Initiatives in Tea Estates:</b><br>Tea Division has one Hydel Turbine operational at MIM T.E. in Darjeeling. |   | Only PPC/Tea Board approved agro chemicals are used in the Tea Gardens. Air quality in the processing/sorting as well as from the chimney and waste water quality is being monitored during production and report has been submitted to the State Pollution Control Board for obtaining consent to operate. Bio medical waste is being segregated and then disposed off after following the statutory norms. Empty chemical containers are disposed off only through PCB approved vendors. |

| Permanent Workers                                                                      |                                                                                                                                                                        | A grievance redressal mechanism is in place to address and resolve concerns raised by both employees and workers. The process is designed to ensure that complaints are handled promptly, fairly, and transparently. Employees and workers can submit their grievances through a designated channel, such as a grievance portal, email, or in-person to the human resources department or designated personnel. The mechanism ensures confidentiality and impartiality in handling grievances. Upon receipt of a complaint, a thorough investigation is conducted, and appropriate actions are taken to resolve the issue. Regular follow-ups are conducted to ensure a satisfactory resolution and to address any further concerns. The Estates has Grievance Committees consisting of an executive from the garden and Five workers (Male & Female) including representatives from worker's unions. If the complaint is found to be genuine, then the complaint is forwarded to the Manager of the estate for solicitation within 90 days of receipt of complaint. |                                                                                            |         |                        |                                                  |                                                                                            |                               |           |                      |         |

|                              | There are internal complaint committees to address sexual harassment cases at registered offices. The tea estates have a grievance committee, anti-sexual harassment committee, assess and address the complaint, gender equality committee, and occupation health and safety committee. Regular awareness and training sessions are conducted to ensure that the employees are fully aware of the aspects of sexual harassment and of the redressal mechanism. |                                                                                                              |

|    | To reduce the use of hazardous and toxic chemicals, the entity has adopted Integrated Pest Management (IPM), which emphasizes prevention, biological controls, and the use of organic pesticides, resorting to chemical pesticides only as a last measure. This sustainable strategy promotes environmental responsibility and long-term ecological balance. In line with PCB guidelines, all hazardous waste is stored and disposed of in a safe and compliant manner, reinforcing the organization's commitment to eco-friendly practices and regulatory compliance. A filtration plant has been installed at the outlet drains of the factory and gardens to minimize the discharge of hazardous substances into natural water bodies. |                   |                                          |                                          |

|   | Complaints received from customers are sent to the concerned departments to investigate and provide resolution of the same. Corrective actions are taken to avoid reoccurrence of the cause of such complaints. Feedback is obtained from customers and SOPs are strictly followed to minimise the grievance of the Customers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                          |                                   |                                   |                          |                                   |                |
