| 1.    | Business Continuity Plan and Disaster Resilience | Risk                                 | <p>HFL's Business Continuity Plan (BCP) primarily focuses on identifying the resources and capabilities required by the organisation to prepare for, respond to, and recover from potential threats. These potential threats include homogeneity in the customer portfolio, the location of operations, and inadequate succession planning. Furthermore, HFL considers political issues in various areas of facilities and operational interruptions due to equipment breakdown.</p> <p>Additionally, HFL considers disasters or emergencies at facilities or the head office resulting from natural disasters such as earthquakes, hurricanes, storms/cyclones, lightning, etc., as well as fire, explosions, riots, terrorism, and power failures.</p> | <p>HFL's key measures for the Business Continuity Plan include establishing operational units across India and implementing proper succession planning. A major focus is to diversify the customer base and avoid overdependence on a select few.</p> <p>Ice-cream manufacturing capacities created in Nashik and Sandila offers risk mitigation for our customers providing alternate production centres in the event of any disaster/emergency.</p> <p>Additionally, all manufacturing facilities have well-prepared disaster management plans and are equipped for disaster preparedness.</p> | <p>Positive: Impact of HFL's key measures on the business continuity plan. However, costs can be incurred negatively during the time of disaster preparedness.</p> |
| 2.    | Regulatory Compliance                            | Risk                                 | The rapidly changing regulatory environment and adapting to major regulatory changes can cost the Company more.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | In its current practice, HFL is compliant with all applicable laws and regulations. HFL always follows updates in the regulatory framework.                                                                                                                                                                                                                                                                                                                                                                                                                                                      | <p>Positive: Ensuring compliance with all applicable laws and regulations fosters a positive environment for businesses.</p>                                       |

| 3.    | Business Ethics and Conduct and Corporate Governance | Risk                                 | HFL operates within a context where it faces risks associated with corporate governance and ethical business practices. Engaging in unethical conduct can significantly damage the Company's reputation and result in financial repercussions, such as fines and penalties. On the other hand, implementing strong corporate governance practices contributes to the long-term sustainability and resilience of the business. | <p>HFL recognises that good corporate governance plays a vital role in establishing trust among stakeholders, including shareholders, employees, the environment, and the communities it serves. Corporate governance is seen as an essential component of effective management at HFL, and the Company is committed to upholding the highest standards of integrity, ensuring compliance with laws and internal policies. To facilitate this, the Board of Directors has implemented a Code of Conduct Policy and a Whistle Blower Policy that applies to all.</p> <p>HFL has established various committees dedicated to sustainability matters. As per the Companies Act, 2013, HFL has a CSR Committee, which is a committee of the Board duly constituted to formulate and recommend CSR activities to be undertaken by the Company to the Board. Additionally, HFL has a Risk Management Committee that consists of a framework for identifying internal and external risks specifically faced by the Company, which also includes ESG-related risks.</p> | <p>Positive: Good governance leads to ethical actions and stronger stakeholder relationships.</p> |

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity:

Throughout its entire value chain, the Company actively engages with various stakeholders. Each business function compiles a comprehensive list of stakeholders and works to understand and meet their expectations. Stakeholders are identified based on the Company's industry dynamics, business model, and capital structure. These stakeholders are then categorised into four groups: Employees, Customers, Suppliers, Investors, and Communities.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)  
If yes, name of the external agency.

No, independent assessment has been carried out by any external agency.

### 5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

- 11 number of sites have implemented a mechanism for Zero Liquid Discharge, wastewater generated is treated and reused within the site premises.
- HFL Baddi discharges treated water to CETP as per State government guidelines.

### 8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details

The Company is taking measures to reduce its carbon footprint through various initiatives. One of these projects includes the use of renewable energy. The Company has entered into a Group Captive energy agreement for sourcing its power from Solar sources; It is also replacing a fossil fuel fired boiler with bio briquettes as its fuel.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No, independent assessment has been carried out by any external agency.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Since the Company is into a Contract Manufacturing business, all its operations are governed by the principal company (Customers) ranging from procuring raw materials and manufacturing products to safe disposal of waste. The Company has SOPs in place to ensure safe and responsible disposal of waste as per environment consent.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details in the following format:

None of our operations/offices are situated in/around ecologically sensitive areas.
