All factory units have a Grievance redressal committee to redress individual grievances.

- Communities:** Community members can report their grievances by documenting them and submitting a written complaint to the HR manager of the respective units. The Plant Head, in coordination with the respective stakeholder, addresses these grievances. The Unit Administration promptly handles all grievances from the communities. To date, no significant concerns have been reported.
- Investors/Shareholders:** The Stakeholders Relationship Committee examines and addresses various aspects of shareholder interests. This Committee plays a crucial role in ensuring cordial and productive investor relations by overseeing the mechanisms established for the redressal of investor grievances. Granules has implemented a comprehensive Investors Grievance Redressal Policy. This policy outlines the procedures and protocols for addressing any concerns or issues raised by investors, ensuring that their grievances are managed promptly and effectively.

<https://granulesindia.com/wp-content/uploads/2022/03/Investor-Grievance-Redressal-Policy.pdf>

- Employees:** Granules has established robust internal mechanisms to effectively address grievances related to human rights issues. Employees and stakeholders are encouraged to report any concerns regarding human rights violations through multiple channels, including direct communication with their managers, the Head of the Department, the Unit HR Manager, or the Compliance Officer. As a standard practice, we encourage employees to discuss or report concerns to their managers. However, if any individual is uncomfortable reporting a potential violation to their supervisor, they are encouraged to raise their concerns with the Head of Department, Unit HR Manager, or Compliance Officer. This approach ensures that all concerns are handled promptly and following our commitment to ethical conduct and accountability.
- Customers:** All the customer complaints that were received have been resolved in a time frame as stated in our Quality standard operating procedures and proposed improvements incorporated into the processes, and the Company makes sure that no complaints are pending at the end of the financial year. To report an adverse experience with a specific Granules drug product, one can call the Granules Pharmacovigilance Team or report at - drugs.safety@granulesindia.com
- Customer complaints pertain to packaging, quality, transit, and others.
- Value Chain Partners:** At Granules, we are committed to maintaining strong, transparent, and mutually beneficial relationships with our value chain partners. To ensure that any grievances or concerns are addressed promptly and effectively, we have established a comprehensive Grievance Redressal Procedure. The Downstream-related grievances are handled by the marketing team; Upstream grievances are handled by supply chain management. In case of any queries or concerns partners can reach out to <https://granulesindia.com/register-as-supplier/>.

26. Overview of the entity's material responsible business conduct issues:

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate.	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate Change and GHG Emissions	Risk / Opportunity	Risk: Climate Change will increase the frequency of natural disasters like heat waves, flooding, and cyclones, which have the potential to physically impact our operations. Climate Change will also lead to transition risks like regulatory, legal, technological, and market-based risks. Opportunity: Granules is focused on converting transition risk into opportunities through innovation across manufacturing and close collaboration with the value chain.	Granules is adopting a comprehensive approach to GHG risk and mitigation. Estimating GHG emissions on Scope 1, 2, and 3 with supplier engagement has been one of the key initiatives in the reporting year. Additionally, Granules has implemented various initiatives to improve energy efficiency in the manufacturing area to reduce GHG emissions. The decarbonisation plan is being embedded into the business process. One of our key programs is CZRO, which will support the transformation of climate risk into opportunities.	Negative in the shortterm and positive in the Long- Term.
2	Water Management	Opportunity	Effective water and effluent management measures increase our operational efficiency, ensure compliance with regulatory requirements, and enhance the resilience of our business towards water, a critical resource.	We are maintaining a Zero Liquid Discharge (ZLD) System and Effluent Treatment Plants with RO Recovery System to ensure that the effluents generated are treated to minimize the environmental impact and reuse the resources wherever possible. The treated water is suitably recycled back into the utility makeup. We have reduced our dependence on groundwater through water conservation techniques, such as rainwater harvesting, recycling, and effluent water treatment.	Positive

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate.	Financial implications of the risk or opportunity (Indicate positive or negative implications)
3	Waste Management	Risk/ Opportunity	Risk: Waste-related regulations pose a risk to the companies in the sector. Opportunity: A comprehensive resource management plan will help Granules reduce waste generation support in climate initiatives and bring circularity.	Under clean manufacturing, all the solid wastes generated at our manufacturing plants are either sent to cement industries for co-processing or to authorized vendors. Hazardous and non-hazardous waste is segregated at the source and stored in dedicated spaces in the manufacturing facilities. Hazardous waste is stored category-wise in hazardous waste storage areas and disposed of at Pollution Control Board-authorized disposal facilities as per applicable regulations. Almost 100% of the non-hazardous waste generated is sent to authorized recyclers for recycling, creating an effective and efficient waste management system. EPR program: Granules registered member under the Extended Producer responsibility (EPR) framework, reaffirming our commitment to sustainable waste management. Through EPR, we take responsibility for the post-consumer stage of our products, ensuring environmentally sound collection, recycling, and disposal practices.	Negative/ Positive
4	Employee Engagement and Well Being	Opportunity	The wellness and Well-being of the employees are Granules priorities. This supports granules in achieving the business goals and opportunities.	“Granules wants to be an employer of choice.” Employee well-being is our topmost priority. The company organizes quarterly health awareness campaigns and conducts meditations and stress management sessions with eminent speakers. The Company has tied up with the “Ekincare” integrated platform that provides access to many healthcare services such as 24*7 chat with doctors, health check-ups at concessional rates, medicines purchase and delivery, and access to gyms etc. Annual health check-ups and insurance are provided to the employees. This will help the management achieve its goals in terms of creating a conducive work environment and helping employees realize their potential.	Positive

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate.	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5	Occupational Health & Safety	Risk	Risks related to Exposure of employees to Work-related Hazards and potential legal liabilities due to workplace accidents. Failure to comply with these standards leads to regulatory, reputational, and business continuity risks, which may, in turn, adversely impact our business's sustainability.	We strive to adhere to the standards of Environment, Health & Safety (EHS) and Sustainability. We have an occupational health and safety management system certified as per ISO 45001:2018. To enhance safety performance, we also undertake third-party safety audits through reputable agencies. We also have Occupational Health Centers in all Manufacturing facilities and have medical assistance around the clock. We have introduced a Night Manager to enhance safety monitoring during the night hours. Employees are provided with training to make them familiar with applicable Health and Safety guidelines and report any unsafe conditions or acts, or near misses to the functional heads. Process risk analysis and HAZOP were conducted.	Negative
6	Human capital Development	Opportunity	Higher Employee retention and enhanced skills support organizational growth and our ability to have a positive impact on communities.	We value diversity in our workforce and make all efforts to ensure that we provide an inclusive working environment and can attract and retain diverse talent. Also, we encourage and nurture talent within the organization by conducting skill development and career development workshops. Granules has partnered with Swarna Bharat Trust to provide skill development programs and nurture talent. Here youth are allowed to participate in the “Earn & Learn” program. Students who are trained at Pharma Pathshala are allowed to work with us after successfully completing the program. We have launched the “Granules Learning Academy” concept, which includes Training Grass-Root employees on the Fundamentals of Unit Operation in Manufacturing and Quality Control. Role- based training on guidelines and standards is being initiated for managers engaged in pharmaceutical manufacturing.	Positive

6. Performance of the entity against the specific commitments, goals, and targets along-with reasons in case the same are not Met

Energy	- Granules continues to demonstrate a growing commitment to sustainable energy practices. In FY25, renewable energy consumption increased by nearly 48%, rising from 143.59 TJ in FY24 to 213.24 TJ. This shift resulted in 24.2% of the total energy (Coal + Electricity) being sourced from renewables (Biofuel, Renewable power), a significant step forward in our decarbonization journey. - Despite a slight increase in overall energy consumption (from 875.9 TJ to 881.18 TJ), the increase in renewable share reflects our active transition toward cleaner energy sources, including biofuels and renewable electricity. - Notably, energy intensity (TJ per MT of production) rose due to a decrease in overall production volume. However, the increased integration of renewables helped reduce dependence on fossil fuels, with energy from non-renewable sources declining from 732.35 TJ in FY24 to 667.94 TJ in FY25 — a net reduction of approximately 64.4 TJ.
Emissions	- Since our base year (FY23), we have achieved a 32.2% reduction in total Scope 1 and Scope 2 (market-based) emissions; bringing it down from 112,571 tCO₂e in FY23 to 76,267 tCO₂e in FY25. This includes a 13.2% drop compared to the previous year alone. - This remarkable progress is driven by our increasing use of renewable energy and energy-efficient operations. One of the key steps we took was installing a 1 MW on-site solar power system at our Gagillapur unit, which is now contributing to our clean energy supply. - While our direct emissions (Scope 1) remained almost constant, we made significant progress in reducing our electricity-related emissions (Scope 2). Market-based Scope 2 emissions dropped sharply from 56,306 tCO₂e in FY23 to 18,853 tCO₂e in FY25, showing our shift towards greener electricity sources.

Water	- Specific water consumption improved from 4.98 KL/MT in FY23 (base year) to 4.33 KL/MT in the current year, reflecting enhanced operational efficiency. - Total water consumption reduced from 283,330 KL in FY23 to 216,823 KL, indicating substantial water conservation efforts. 44.2% of the wastewater generated is recycled, reinforcing our commitment to sustainable water management and circular practices.
Waste	- Around 80% of the hazardous waste is disposed of by cement industries for co-processing, thereby promoting circular economy as well as reducing the GHG footprint. 100% of our Non-Hazardous waste generated at our operations are recycled through authorized vendors - Overall waste generation reduced significantly from 7,236 MT in FY24 to 6,086 MT in FY25

GOVERNANCE, LEADERSHIP AND OVERSIGHT

7. Statement by the director responsible for the business responsibility report, highlighting ESG-related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)

At Granules India, sustainability is an integral part of our business strategy, guided by our purpose of “Healing lives responsibly through pioneering green science.” In the past year, we have made meaningful progress on our Environmental, Social, and Governance (ESG) journey, while also navigating evolving global expectations, regulatory shifts, and operational complexities.

One of our significant milestones was the approval of our Net Zero target by 2050 by the Science Based Targets initiative (SBTi), aligned with the 1.5°C pathway. This marks a major step forward in our climate action roadmap and reinforces our commitment to decarbonization. We continue to work on strengthening our Scope 3 emissions inventory and driving energy efficiency across our operations.

We are proud to have improved our CDP Climate rating from C to B, received the Golden Peacock Award for Sustainability, and earned the EcoVadis Gold rating, placing us in the top 5% of companies globally assessed by EcoVadis. These recognitions reflect the impact of our collective efforts and commitment to ESG excellence.

On the social front, we have committed to doubling the employment of women by 2030 compared to FY24. We are also strengthening our policies on human rights, diversity, equity, and inclusion, and deepening engagement across our value chain. Our supplier sustainability program, aligned with PSCI principles, reflects our intent to extend our ESG standards beyond our direct operations.

We also advanced our ESG data management systems to improve transparency and accountability, while aligning with global frameworks such as GRI, TCFD, and the UN SDGs. The development of a centralized ESG data portal and digital dashboards is helping ensure accuracy, consistency, and better oversight across locations.

As we look ahead, we remain focused on embedding sustainability deeper into our core operations, fostering innovation, and building resilience. While challenges remain particularly in Scope 3 measurement, waste circularity, and regulatory compliance. we view these as opportunities to lead with responsibility and purpose.

We are confident that with our clear vision, strategic actions, and collective resolve, Granules will continue to deliver long-term value for all stakeholders.

Leadership Indicators

1. Awareness programs conducted for value chain partners on any of the principles during the financial year:

Total number of awareness programs held	Topics/principles covered under the training	% age of value chain partners covered (by value of business done with such partners) under the awareness programs
Awareness sessions conducted separately for all key suppliers in the reporting year	- Supplier Code of Business Conduct - ESG Practices	90% of Value chain partners

We assess 100% of our suppliers for Key Active Pharmaceutical Ingredients (APIs), Key Starting Materials (KSMs), Excipients, Raw Materials, Intermediates, and Packing Materials at regular intervals or as needed, following our Vendor Management Procedure. This assessment covers various CSR aspects such as CSR policies and committees, wages and payrolls, statutory benefits like PF, ESI, and Gratuity, health and safety measures, emergency preparedness and response plans, chemical storage practices, waste management, and wastewater management.

In addition to formal and informal interactions to exchange information and expectations on ESG (Environmental, Social, Governance) and sustainability aspects, in the financial year, we extended our efforts through our Scope-3 GHG Assessment. We reached out to all key suppliers to collaborate on providing accurate data related to their manufacturing processes, energy and fuel consumption, Scope 1, Scope 2, and Scope 3 emissions, and product carbon footprint for materials supplied to Granules India.

Granules has implemented a robust Supplier Sustainability Program, engaging over 80% of its suppliers (by purchase spent) to align with shared sustainability goals. As part of this initiative, 92% of these suppliers have acknowledged the program and designated a Single Point of Contact (SPOC) to ensure effective coordination. To assess the current state of ESG practices, Granules rolled out a detailed survey evaluating supplier maturity across key areas such as policies, governance frameworks, sustainability targets, ongoing initiatives, certifications, and regulatory compliance. So far, 73% of the suppliers have completed the survey, reinforcing our commitment to building a responsible and transparent supply chain.

The program further encourages suppliers to commit to environmental and climate-related disclosures, including reporting their greenhouse gas emissions and providing product-level carbon footprint data. It promotes the development of science-based targets validated by the Science Based Targets initiative (SBTi) and supports the transition to renewable electricity. Through these collaborative efforts, Granules aims to deepen climate accountability and foster sustainable practices throughout the value chain, amplifying our collective impact toward a low-carbon future.

2. Does the entity have processes in place to avoid / manage conflicts of interest involving members of the Board? (Yes / No) If Yes, provide details of the same.

Yes, Granules places a strong emphasis on ethical and lawful business conduct, which is a core value shared by our Board of Directors and Management. Our business conduct standards prioritize upholding ethical and legal norms while pursuing our financial objectives and business goals, ensuring unwavering honesty and integrity in all circumstances. Aligned with these principles, Granules' Board has implemented a Code of Conduct for Board & Senior Management.

This Code provides clear guidance to Directors and senior management personnel on maintaining high ethical and legal standards. It mandates professional conduct, courtesy, and respectfulness while also emphasizing the importance of identifying, mitigating, and preventing conflicts of interest.

Through these measures, Granules India ensures that its governance practices are robust, transparent, and committed to safeguarding the interests of all stakeholders, thereby reinforcing our commitment to ethical excellence and corporate integrity.

PRINCIPLE 2- BUSINESSES SHOULD PROVIDE GOODS AND SERVICES IN A MANNER THAT IS SUSTAINABLE AND SAFE

At Granules, we emphasize the significant role of integrating safety and resource efficiency into our research and manufacturing processes. This highlights the essential need for businesses to utilize their resources in a way that adds value while reducing negative impacts on the environment and society at every stage, from design to disposal.

Essential Indicators

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of products and processes to total R&D and capex investments made by the entity, respectively.

	FY2024-25	FY 2023-24	Details of improvements in environmental and social impact
R&D	100%	100%	At Granules, we are investing in a green molecule platform to reimagine pharmaceutical manufacturing and complete supply chain decarbonization, including solving the scope 3 challenge for the pharma industry, NIPER
CAPEX	8.80%	8.90%	

2. A. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, Granules is committed to maintaining responsible procurement practices across its supply chain by implementing stringent protocols for vendor identification and approval. We ensure rigorous standards are met through periodic site audits, regulatory approval checks, and regular sample analyses to uphold the highest product quality. As part of our procurement process, suppliers and vendors undergo thorough evaluations based on material risk assessments, compliance with environmental regulations, labor laws, carbon footprint considerations, and health and safety parameters. Granules has established a Supplier Code of Conduct that articulates our vision and expectations from Manufacturers, Suppliers, Service Providers, Traders, Consultants, and Contractors (collectively referred to as "Suppliers"). Key elements of our Supplier Code of Conduct include:

- Ethical conduct and integrity in all business dealings.
- Compliance with human rights standards, ensuring the dignity and protection of employees.
- Adherence to all relevant environmental regulations and maintenance of necessary permits and licenses.
- Provision of a safe and conducive work environment with a Health and Safety Policy/Guideline that aligns with local and national regulations.
- Implementation of a management system to ensure compliance with laws and regulations, manage operational risks, and drive continuous improvement.

B. If yes, what percentage of inputs were sourced sustainably?

100% of Key Active Pharmaceutical Ingredients (APIs), Key Starting Materials (KSMs) are sourced sustainably.

All our Key Starting Materials (API, KSMs) vendors are Good Manufacturing Practices (GMP) compliant and adopt sustainable practices. As part of routine audits, we also rate them for sustainable practices, in addition to quality.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste

Sl. No.	Product	Product Process to safely reclaim the product
1.	Plastics (including packaging)	Plastics (including packaging) are recycled and disposed of according to Central Government rules and the provisions of the Plastic Waste Management Rules.
2.	E-Waste	E-waste is disposed of through a registered recycler.
3.	Hazardous Waste	Hazardous waste is disposed of at a Treatment, storage, and disposal facility (TSDF) or authorized cement industries for further treatment and disposal or co-processing.
4.	Other Waste	Bio-medical waste is disposed off through authorized common bio-medical waste facilities.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity’s activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, we have received our EPR registration certificate on December 26, 2023 from Central Pollution Control Board (CPCB). Our Waste Management plan is in line with EPR requirements.

Leadership Indicators

1. Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details

NIC Code	Name of Product / Service	% of total Turnover contributed	Boundary for which the Life Cycle Perspective / Assessment was conducted	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No) If yes, provide the web-link.
----------	---------------------------	---------------------------------	--	---	--

We have estimated the Product Carbon Footprint (PCF) for 5 of our molecules covering 65% of our product sales. In the near future, we will conduct Life cycle assessments covering all the impact categories.

2. If there are any significant social or environmental concerns and/or risks arising from the production or disposal of your products/services, as identified in the Life Cycle Perspective / Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

Name of Product / Service	Description of the risk / concern	Action Taken

PRINCIPLE 3- BUSINESSES SHOULD RESPECT AND PROMOTE THE WELL-BEING OF ALL EMPLOYEES, INCLUDING THOSE IN THEIR VALUE CHAINS

At Granules, we respect and promote the health and well-being of all our employees, including those across our value chain.

Essential Indicators

1. a. Details of measures for the well-being of employees:

Granules places a strong emphasis on the well-being of its employees, implementing a range of comprehensive measures and programs to support their health and vitality. Our employees benefit from extensive coverage under a group medical health insurance policy and ESI. Additionally, all employees are covered under a Group Personal Accident policy, with provisions for Maternity and Paternity benefits.

We have partnered with hospitals like AIG, Apollo, and Star to offer health awareness sessions led by consulting doctors. These collaborations also provide our employees with access to one-on-one consultations at discounted rates. Additionally, we organize various webinars focused on mental health and ergonomics.

To further promote employee well-being, Granules has teamed up with the integrated health platform "Ekincare" to conduct pre-employment health check-ups.

In addition to these foundational benefits, Granules organizes annual comprehensive health camps, which include screenings for eye, dental, and cardiac health. Quarterly health awareness campaigns are conducted to promote preventive care and health education among employees. Furthermore, the company hosts meditation, yoga and stress management sessions conducted by experts, aimed at fostering mental well-being.

To encourage physical fitness, Granules arranges various activity-based programs throughout the year, such as Zumba sessions, Walkathons, and Stepathons. These initiatives not only promote a healthy lifestyle but also cultivate a supportive and nurturing workplace environment.

10. Health and Safety Management System

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage of such system?

At Granules, we place a strong emphasis on maintaining high standards of Environment, Health, and Safety (EHS) to ensure sustainable operations. Adhering to these standards is crucial as any lapse can lead to regulatory penalties, damage to our reputation, and disruptions to our business continuity, all of which could jeopardize our long-term success.

Our commitment is underscored by our ISO 45001:2018 certified occupational health and safety management system. This system is implemented at our facilities in Gagillapur, Jeedimetla, Bonthapally, and Visakhapatnam, where dedicated Occupational Health Centres (OHC) are established. These centres play a critical role in promoting a safe working environment, supported by teams focused on enhancing occupational health and safety practices across our operations.

To support our employees' well-being, we have full-time doctors available at each manufacturing site who promptly address any medical concerns. Additionally, our employees have access to 24/7 nursing assistance onsite, ensuring immediate support for health-related issues.

By integrating these measures into our daily operations, Granules not only prioritizes the health and safety of its workforce but also ensures compliance with environmental regulations and promotes sustainable business practices. This proactive approach reflects our commitment to responsible corporate citizenship and maintaining the trust of our stakeholders in the pharmaceutical industry.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

- At Granules, Safety is our top priority. 100% of our employees and workers were given training in Health and Safety at the workplace.
- We have conducted 52 Risk Assessments & HAZOP studies internally across the units to help us identify potential hazards and assess risks, allowing us to implement effective safety measures.
- Third-party experts assessed fire and electrical safety at all our units. These assessments ensure compliance with safety regulations and help us maintain safe working environments.
- We conducted Industrial Hygiene assessments to evaluate workplace conditions and potential health hazards at our Gagillapur unit, ensuring our employees work in safe and healthy environments.
- Severity estimation of potential consequences for each undesired incident, considering mitigation safeguards and conditional factors.
- Process Hazard Analysis is conducted to identify and analyze potential causes and consequences of fires, explosions, toxic or flammable chemical releases, and major hazardous chemical spills.
- Risk Assessments are performed to identify workplace health and safety hazards and evaluate associated risks. Existing control measures are assessed for effectiveness and suitability.
- Fire safety management procedures are established across all workplaces to ensure preparedness and response capabilities.
- Regular safety inspections and audits are conducted to monitor compliance with system requirements. Any deviations identified are promptly addressed through corrective actions.
- Work permit systems are implemented to define conditions and procedures for the safe execution of work under controlled risk conditions.

c. Whether you have processes for workers to report work-related hazards and to remove themselves from such risks. (Yes/No)

Yes, Granules has well-established Standard Operating Procedures (SOP) for employees and workers to identify and report work-related hazards and the subsequent steps to mitigate them. A safety observations and interactions program is in place to identify and report all near misses, unsafe acts, and unsafe conditions.

Granules trains all its employees and workers with occupational health and safety modules, which cover aspects of the methodology for identifying work-related hazards, analyzing the risks associated with them, and taking subsequent steps to mitigate them.

During the emergency evacuation drills, employees are trained to handle emergency equipment such as fire hydrants, firefighting systems, leak and spill control procedures, and safety alarms. The training and safety modules equip the employees with the right procedure for reporting work-related hazards and the steps to remove themselves from such situations.

d. Do the employees/workers of the entity have access to non-occupational medical and healthcare services? (Yes/No)

Yes, Granules provides non-occupational medical and healthcare services to its employees. Further, the Company ensures the provision of Group medical insurance to all its employees and dependents. Contract Employees are provided with health benefits from Employee state insurance (ESI).

PRINCIPLE 4- BUSINESSES SHOULD RESPECT THE INTERESTS OF AND BE RESPONSIVE TO ALL ITS STAKEHOLDERS

At Granules, we respect and uphold the interests of all our stakeholders and engage with them frequently.

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

Granules identifies key stakeholder groups through a systematic process that involves assessing and understanding the individuals, organizations, or entities that significantly impact or are impacted by our operations and decisions. Our approach includes:

- Stakeholder Mapping:** We conduct stakeholder mapping exercises to identify and prioritize groups based on their influence, interests, and involvement with our business. This helps us understand our key stakeholders and how they are connected to our activities.
- Engagement and Feedback:** We engage directly with stakeholders through various channels such as surveys, consultations, and feedback mechanisms. This interaction allows us to gather insights into their expectations, concerns, and perspectives.
- Impact Assessment:** We assess the potential impact of our operations on different stakeholder groups and vice versa. This helps us prioritize stakeholders who may be significantly affected by our decisions or have a critical role in our success.
- Continuous Review:** Our stakeholder identification process is dynamic and ongoing. We regularly review and update our list of stakeholders to reflect changes in our business environment, stakeholder interests, and emerging issues.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Leadership Indicators

- Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board?**

As a global pharmaceutical company with diverse stakeholders spread across geographies, we consistently engage with our stakeholders to explore opportunities for collaboration to enhance our core capabilities and create shared value. Feedback from such engagements is shared with the Board on a periodic basis.

- Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into the policies and activities of the entity.**

Yes, The Company has engaged in materiality assessment to gather opinions and insights from its stakeholders to understand their expectations, concerns, and interests. This includes assessing numerous potential environmental, social, and governance issues and risk factors that may impact our operations. The inputs of stakeholders were used to determine topics that are material to the Company. The outcome of that materiality exercise would be translated into an Integrated ESG Strategy. This strategy framework helps the Company in framing specific sustainability focus, pillars, goals and targets. Apart from this recent exercise, we believe in consultations with our stakeholders on sustainability to implement our major initiatives.

- Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.**

Granules is committed to engaging with and addressing the concerns of vulnerable and marginalized stakeholder groups as part of our Corporate Social Responsibility (CSR) initiatives. We actively collaborate with local communities, NGOs, and government bodies to understand and respond to their needs effectively. Our actions include various outreach programs focusing on education, healthcare, and skill development to empower marginalized groups.

We also prioritize inclusive practices in our employment and procurement processes, promoting diversity and equitable opportunities. Granules India Limited has initiated impactful CSR efforts on skill development and community health. Through our partnership with Swarna Bharat Trust, we launched Pharma Pathshala, offering students skill development programs and employment opportunities. Participants engage in the "Earn & Learn" program, gaining technical skills through various training initiatives. They receive on-the-job training and opportunities for higher education under the "Self-Managed Team" framework, enhancing their employability in the pharmaceutical sector.

PRINCIPLE 5- BUSINESSES SHOULD RESPECT AND PROMOTE HUMAN RIGHTS

At Granules, we uphold the principles of dignity, freedom, and fairness in the workplace, ensuring every employee is respected and valued. We are committed to creating an inclusive environment where all team members can work without discrimination or bias.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Granules maintains a zero-tolerance policy towards non-compliant behaviour, and we are dedicated to addressing any concerns or issues related to violations of the Code of Conduct. As a standard practice, we encourage stakeholders to discuss or report concerns to their managers. However, if any individual is uncomfortable reporting a potential violation to their supervisor, they are encouraged to raise their concerns with the Head of Department, Unit HR Manager, or Compliance Officer. This approach ensures that all concerns are handled promptly and following our commitment to ethical conduct and accountability.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues?

Granules has established robust internal mechanisms to effectively address grievances related to human rights issues. Employees and stakeholders are encouraged to report any concerns regarding human rights violations through multiple channels, including direct communication with their managers, the Head of the Department, the Unit HR Manager, or the Compliance Officer.

Upon receiving a grievance, Granules follows structured procedures outlined in our policies, ensuring confidentiality and sensitivity throughout the investigation. We prioritize prompt and impartial handling of grievances to uphold our commitment to ethical conduct and respect for human rights. Our goal is to resolve issues swiftly and appropriately, fostering a workplace environment where human rights are safeguarded and respected.

At Granules, we follow a staged process in addressing human rights issues:

Raising Concern	As a standard practice, we encourage individuals to discuss or report any concerns regarding potential violations with their manager. If someone is uncomfortable reporting to their supervisor, they can raise their concern with the Head of the Department, Unit HR Manager, or Compliance Officer.
Reporting Violation	Employees are encouraged to promptly report any potential or actual violations of laws, company policies, or the Code of Conduct to their Manager/Supervisor, Unit HR, CFO, CHRO, or Compliance Officer.
Investigation	The Code of Business Conduct Committee will promptly and thoroughly investigate every concern and report of violation as per applicable law and procedures.
Disciplinary Action	Based on the nature and particulars of the violation, the investigation committee recommends corrective and preventive action, including disciplinary action.
No Retaliation	We strictly prohibit retaliation against individuals who report alleged violations in good faith. Our Policies ensures that employees can raise concerns without fear of reprisal, fostering a culture of transparency and accountability

Whistleblower Policy:

We have devised an effective whistleblower mechanism enabling employees to freely communicate their concerns about illegal or unethical practices. The Company has also established a vigil mechanism for employees to report concerns about any unethical behaviour, actual or suspected fraud or violation of the Company's code of conduct. The prime objective of this policy is to provide employees and Directors an avenue to raise concerns in line with the commitment of Granules to the highest possible standards of ethical, moral, and legal business conduct and its commitment to open, fearless, genuine concern communication. The pre-eminent intention of this policy is to provide necessary safeguards for the protection of employees from reprisals or victimization for whistleblowing in good faith.

Prevention of Sexual Harassment Policy (POSH):

As per the requirement of the Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013 ('POSH Act') and rules made thereunder, our Company has formed an Internal Complaints Committee (ICC) for its workplaces to address complaints about sexual harassment under the POSH Act. We have a detailed policy for preventing sexual harassment at the workplace, which ensures a free and fair inquiry process with clear timelines for resolution.

6. Number of complaints on the following made by employees and workers:

Category	FY 2024-25			FY 2023-24		
	Filed during the year	Pending resolution at the end of the year	Remarks	Filed during the year	Pending resolution at the end of the year	Remarks

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:

	FY2024-25	FY2023-24
Total Complaints reported under Sexual Harassment on of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH)	1	0
Complaints on POSH as a % of female employees/workers	0.26%	0
Complaints on POSH upheld	0	0

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

Granules is committed to maintaining a workplace free from harassment, including sexual harassment, with zero tolerance for such behavior. We encourage reporting of any harassment concerns and promptly address complaints through our established procedures outlined in our standing orders. Our policies, including the Code of Conduct and Prevention of Sexual Harassment (POSH) policies, are in place to prevent and resolve such incidents effectively.

Reports of violations must be made in good faith. Regardless of the interpretation of facts, our commitment is to treat all reports fairly. However, filing a false report with malicious intent violates our Code of Conduct. Each individual at Granules plays a vital role in upholding the standards outlined in our Code of Conduct.

To enhance transparency and confidentiality, we have established an "Anonymous Reporting" channel that employees can use to report violations confidentially and/or anonymously. Confidentiality is strictly maintained, and information is shared only on a need-to-know basis to conduct a thorough review.

Granules strictly prohibit any form of retaliation against individuals who make reports in good faith or cooperate in investigating such reports. We are dedicated to creating a supportive environment where all employees feel safe, respected, and empowered to raise concerns without fear of reprisal.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes, Granules has integrated compliance with human rights standards into its standard terms and conditions for supplier agreements and contracts. This commitment is also articulated in Granules' Supplier Code of Conduct, which mandates that suppliers adhere to applicable laws, labor standards, and environmental regulations and uphold principles of ethics and integrity in their operations. This comprehensive framework ensures that all parties involved in Granules' supply chain are aligned with ethical practices and responsible conduct, thereby promoting a fair and respectful business environment across our operations.

10. Assessments for the year:

	% of offices that were assessed (by entity or statutory authorities or third parties)
Child Labor	100% of plants and offices are assessed through SMETA (Sedex Members Ethical Trade) Audits, external customer audits as per Pharmaceutical Supply Chain Initiative (PSCI) principles and Statutory authorities, and certification agencies.
Forced Labor /Involuntary Labor	
Sexual Harassment	
Discrimination at workplace	
Wages	

11. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 10 above.

No critical concerns have arisen from our external human rights assessment. Our ongoing commitment to ethical conduct and adherence to human rights principles ensures that we maintain a proactive stance in preventing issues before they arise. We continue to monitor our practices closely to uphold a respectful and responsible workplace environment consistent with our organizational values and legal obligations.

Leadership Indicators

1. Details of a business process being modified/introduced because of addressing human rights grievances/complaints.

At Granules, there have been no instances of human rights violations recorded, so no specific amendments to our current processes or policies is implemented.

We remain committed to upholding rigorous standards of ethical conduct and compliance with human rights principles across all operations. Should any concerns arise, our established protocols ensure prompt investigation and appropriate action following legal and ethical guidelines, reinforcing our dedication to maintaining a respectful and responsible workplace environment.

2. Details of the scope and coverage of any Human rights due diligence conducted

All our policies are defined and designed to protect the value of human rights. In the reporting period, No such due diligence was either warranted or conducted but are covered as part of PSCI audits.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes, as per the requirements of the Rights of Persons with Disabilities, our Company’s manufacturing premises and offices have infrastructure for differently abled visitors.

4. Details on assessment of value chain partners:

	% Of value chain partners (by value of business done with such partners) that were assessed
Child Labor	90% Value Chain Partners
Forced Labor / Involuntary Labor	
Sexual Harassment	
Discrimination at workplace	
Wages	

5. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 4 above.

At present, no concerns have been raised. In case it arises, we undertake appropriate improvement measures and corrective actions and keep necessary checks and balances in place to address significant risks/concerns.

PRINCIPLE 6- BUSINESS SHOULD RESPECT AND MAKE EFFORTS TO PROTECT AND RESTORE THE ENVIRONMENT

We at Granules underscore the interconnected nature of environmental concerns at local, regional, and global levels. We conduct assessments of the environmental impacts of our products and operations, taking measures to minimize and mitigate effects.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

We maintain Zero Liquid Discharge Systems and Effluent Treatment Plants with RO Recovery Systems to ensure that the effluents generated are treated to minimize the environmental impact and reuse resources wherever possible. The treated water is suitably recycled back into the utility makeup.

We treat our wastewater in ETP/ZLD plants wherever possible, and the treated water is used in utility makeup. About 44.2% of our wastewater is recycled and reused in the operations through our ZLD systems.

6. Please provide details of air emissions (other than GHG emissions) by the entity:

If yes, name of the external agency:

Yes, the independent assurance is carried out by the Bureau Veritas (India) Pvt. Ltd.

8. Does the entity have any project related to reducing Green House Gas emissions? If yes, then provide details.

In FY 24-25, Granules India Limited has undertaken a range of targeted initiatives across its manufacturing locations to enhance energy efficiency and reduce greenhouse gas (GHG) emissions. These efforts led to a total energy savings of approximately 998,494 kWh and a GHG reduction of 1,250.06 tons of CO2, along with financial savings of approximately ₹80 lakhs across all units.

At the Gagillapur facility, the installation of a 667 kWp rooftop solar plant contributed significantly to emissions reduction, offsetting 524.89 tons of CO2, while additional measures such as the installation of online tube cleaning systems for chillers and the replacement of electric heaters with hot water coils led to combined savings of over 345,000 kWh and nearly 251 tons of CO2.

At GIL-1 Bonthapally, the adoption of Variable Frequency Drives (VFDs) to optimize pump operations resulted in a remarkable 457,920 kWh of energy savings and 332.91 tons of CO2 reduction. Meanwhile, the GIL-2 Jeedimetla unit implemented remote monitoring and control systems such as Auto Power Factor Control (APFC) panels and air dryer optimization, yielding 189,400 kWh in savings and over 137 tons of CO2 reduction. Additionally, energy audit-based process improvements—like jacket and RT line enhancements—contributed a further 5,832 kWh and 4.24 tons of CO2 savings.

Beyond energy efficiency, Granules has significantly ramped up its use of renewable electricity. At the Gagillapur unit alone, 6,081 MWh of renewable electricity was procured through Power Purchase Agreements (PPAs), resulting in the avoidance of 4,420 tCO2e emissions. Additionally, Granules procured 50,000 MWh of Renewable Energy Certificates (RECs) for its Gagillapur, Bonthapally, and Jeedimetla units, offsetting 36,350 tCO₂e of GHG emissions. As a result, the renewable electricity share reached 93.7% at Gagillapur, 92.3% at Bonthapally, and 90.8% at Jeedimetla. On an organizational level, 68.7% of total electricity consumed is from renewable sources, while the overall share of energy from renewable sources, including biofuels used in boiler operations, stands at 24.2%.

The overall avoided GHG emissions – 42,020 tons CO₂e.

These initiatives underscore Granules’ commitment to sustainability through operational excellence, renewable energy adoption, and continuous improvement in energy use, all aligned with its long-term Net Zero ambitions and science-based targets.

9. Provide details related to waste management by the entity:

If yes, name of the external agency.

Yes, the independent assurance is carried out by the Bureau Veritas (India) Pvt. Ltd.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Granules operate in a sector producing significant amounts of hazardous and non-hazardous waste. Our manufacturing facilities generate substantial amounts of solvents and other hazardous waste, which we aim to reduce through process optimization and co-processing initiatives. Under our clean manufacturing practices, all solid wastes from our plants are either co-incinerated in cement industries or handled by authorized vendors.

Our Waste Management systems and processes are guided by ISO 14001. We segregate hazardous and non-hazardous waste at the source and store them in dedicated areas within our facilities. After thorough sorting, hazardous waste is stored by category in designated hazardous waste storage areas and disposed of at Pollution Control Board-approved facilities in compliance with relevant regulations.

We registered with CPCB under the Extended Producer Responsibility (EPR) under the Importers category in the current reporting period, and our waste management plan is aligned with the EPR guidelines.

100% of the non-hazardous waste generated at our manufacturing sites is sent to authorized recyclers for recycling. Approximately 80% of our hazardous waste undergoes energy recovery through co-processing, and the rest is disposed of through Authorized vendors. These measures ensure we manage waste responsibly, mitigate environmental impact, and adhere to regulatory requirements effectively.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

We do not have any factories in ecologically sensitive areas

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Note: Category 11, 13, 14, 15 are Not Applicable, as this categories is not relevant to Granules business

Granules Scope 3 quantification methodology is aligned with the GHG accounting standard and ISO 14064, which provides guidance on the quantification and reporting of greenhouse gas emissions. Due to variations in data availability and the nature of each category, we have employed different methodologies for different categories as per below table:

Scope 3 Category No	Scope 3 Category Description	Methodology
1.	Purchased Goods and Services	Supplier-specific method (~85%), Hybrid method (~15%)
2.	Capital Goods	Hybrid method/ Average-product method
3.	Fuel- and Energy-Related Activities	Average-data method
4.	Upstream Transportation and Distribution	Distance-based method
5.	Waste Generated in Operations	Waste-type-specific method

Scope 3 Category No	Scope 3 Category Description	Methodology
6.	Business Travel	Distance-based method
7.	Employee Commuting	Fuel-based method
8.	Upstream Leased Assets	Lessor-specific method
9.	Downstream Transportation and Distribution	Distance-based method
10.	Processing of Sold Products	Average-data method
11.	Use of Sold Products	Not Applicable, as this category is not relevant
12.	End-of-Life Treatment of Sold Products	Average-data method
13.	Downstream Leased Assets	Not Applicable, as this category is not relevant
14.	Franchises	Not Applicable, as this category is not relevant
15.	Investments	Not Applicable, as this category is not relevant

We prioritize the supplier-specific method across more than 80% of our value chain, enabling us to access precise emissions data directly from our partners. This approach captures the distinct practices and efficiencies of each supplier, fostering transparency and accountability.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Our company does not operate in ecologically sensitive areas.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives:

In FY 24-25, Granules India Limited has undertaken a range of targeted initiatives across its manufacturing locations to enhance energy efficiency and reduce greenhouse gas (GHG) emissions. These efforts led to a total energy savings of approximately 998,494 kWh and a GHG reduction of 1,250.06 tons of CO2, along with financial savings of approximately ₹80 lakhs across all units.

At the Gagillapur facility, the installation of a 667 kWp rooftop solar plant contributed significantly to emissions reduction, offsetting 524.89 tons of CO2, while additional measures such as the installation of online tube cleaning systems for chillers and the replacement of electric heaters with hot water coils led to combined savings of over 345,000 kWh and nearly 251 tons of CO2.

At GIL-1 Bonthapally, the adoption of Variable Frequency Drives (VFDs) to optimize pump operations resulted in a remarkable 457,920 kWh of energy savings and 332.91 tons of CO₂ reduction. Meanwhile, the GIL-2 Jeedimetla unit implemented remote monitoring and control systems such as Auto Power Factor Control (APFC) panels and air dryer optimization, yielding 189,400 kWh in savings and over 137 tons of CO2 reduction. Additionally, energy audit-based process improvements like jacket and RT line enhancements contributed a further 5,832 kWh and 4.24 tons of CO2 savings.

Beyond energy efficiency, Granules has significantly ramped up its use of renewable electricity. At the Gagillapur unit alone, 6,081 MWh of renewable electricity was procured through Power Purchase Agreements (PPAs), resulting in the avoidance of 4,420 tCO2e emissions. Additionally, Granules procured 50,000 MWh of Renewable Energy Certificates (RECs) for its Gagillapur, Bonthapally, and Jeedimetla units, offsetting 36,350 tCO2e of GHG emissions. As a result, the renewable electricity share reached 93.7% at Gagillapur, 92.3% at Bonthapally, and 90.8% at Jeedimetla. On an organizational level, 68.7% of total electricity consumed is from renewable sources, while the overall share of energy from renewable sources, including biofuels used in boiler operations, stands at 24.2%.

The overall avoided GHG emissions – 42,020 tons CO2e.

These initiatives underscore Granules’ commitment to sustainability through operational excellence, renewable energy adoption, and continuous improvement in energy use, all aligned with its long-term Net Zero ambitions and science-based targets.

Sl. No.	Initiatives Undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1.	Zero Liquid Discharge System	We maintain Zero Liquid Discharge Systems and Effluent Treatment Plants with RO Recovery Systems to ensure that the effluents generated are treated to minimize the environmental impact and reuse resources wherever possible.	The initiative has enabled complete wastewater recycling, reducing freshwater dependency and ensuring zero liquid discharge from operations.

Sl. No.	Initiatives Undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
2.	Implementation of Rooftop Solar	At our Gagillapur unit, we enhanced our on-site solar power capacity by adding 660 kW to the existing 320 kW system, reaching a total capacity of 1 MW. This expansion contributed to an overall electricity generation of 722 MWh during the year.	722 MWh of power Generated and 524 MT of CO2 GHG Emissions Avoided
3.	Purchase of Renewable Energy through PPA	We procured 6081 MWh of Electricity for Gagillapur unit.	4420 tCO2e of GHG emissions avoided.
4.	Purchase of Renewable Energy Certificates	We have procured 50000MWh of RECs for our Gagillapur, Bonthapally and Jeedimetla unit.	36,350 tCO2e of GHG emissions are offsetted.

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Granules has implemented an Enterprise-wide Risk Management (ERM) framework to identify, prioritize, and continuously monitor the most critical business risks. The board established a dedicated internal Risk committee to oversee and assess these risks continuously.

Granules has established a structured process to monitor its current risk profile and adjust priorities as part of a comprehensive long-term risk mitigation strategy. Granules has engaged third-party to develop a Business Continuity Plan (BCP) and support its Risk Management Program review as part of the ERM framework. The Draft BCP is undergoing review to ensure robustness and readiness.

Granules also has disaster management plans in place to address natural calamities. These plans include onsite emergency procedures and tailored disaster management strategies at the unit level, considering various potential scenarios. This holistic approach underscores Granules' commitment to ensuring business continuity, safeguarding operations, and protecting its stakeholders in the face of unforeseen events.

6. Disclose any significant adverse impact to the environment arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

No significant adverse impact has been observed during value chain assessments. However, we understand that climate change impacts all sectors and all sectors have an impact on the climate. Therefore, we engaged with our suppliers to evaluate the climate impact in the value chain due to carbon emissions occurring on account of manufacturing products for Granules. We have committed and established a strategy to reduce carbon emissions.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

90% of our partners are assessed for environmental impacts. We have regular supplier audits and educate the major suppliers on the environmental aspects.

PRINCIPLE 9-

BUSINESSES SHOULD ENGAGE WITH AND PROVIDE VALUE TO THEIR CONSUMERS IN A RESPONSIBLE MANNER

Granules understand the importance of businesses to provide safe and valuable products and recognize its role in promoting responsible consumption and strives to abide by the same.

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

- At Granules India, we strongly emphasize providing our customers with the best quality products. We believe in delivering quality products and on-time service to all our customers. To achieve this, our marketing team actively collects customer feedback through various channels, including surveys, direct communications, and customer service interactions. This feedback is then processed and analyzed to identify areas for improvement and ensure that our products and services meet customer expectations.
- All customer complaints received are resolved within the timeframe stated in our quality standard operating procedures, with proposed improvements incorporated into our processes. We ensure that no complaints remain unresolved (at the end of the stipulated period for resolution) by the end of the financial year. Each logged consumer complaint is thoroughly investigated, and a detailed response with action plans is provided to our customers and respective internal stakeholders as required. This systematic approach helps us address issues promptly and implement necessary changes to enhance product quality and customer satisfaction.
- Integrating customer feedback into our continuous improvement efforts demonstrates our commitment to excellence and dedication to maintaining the highest standards in everything we do. This proactive approach ensures that our customers receive the best products and services, reinforcing our reputation for quality and reliability.

2. Turnover of products and/services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	100%
Safe and responsible usage	100%
Recycling and/or safe disposal	100%

Granules complies with all regulatory requirements regarding the display of information on product labels. Our labels clearly show the product name, strength, batch number, expiry date, and manufacturer address. This ensures that consumers have all the essential information they need.

We emphasize the importance of safe and responsible usage, providing clear instructions on using the product correctly. Our product brochures also contain information on recycling and safe disposal, guiding consumers on managing the product responsibly after use. This comprehensive approach meets regulatory standards and promotes environmental consciousness and social responsibility, ensuring the well-being of our customers and the community.

3. Number of consumer complaints:

	FY 2024-25			FY 2023-24		
	Received during the year	Pending resolution at end of year	Remarks	Received during the year	Pending resolution at end of year	Remarks

Other-Packaging, Quality, Transit and others	580	0	All the complaints were resolved during the reporting period	486	0	All the complaints were resolved during the reporting period

4. Details of instances of product recalls on accounts of safety issues

	Number	Reasons for recall
Voluntary recalls	2	Two product recalls were initiated as a precautionary measure: one involving Gabapentin 600 mg due to the presence of incorrect tablets in a bottle, and another for Metformin ER 500 mg due to mixing of tablets from a different product batch.
Forced recalls	0	NA

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Yes. Our Privacy Policy aims to ensure the privacy of Personal Information processed by Granules by implementing necessary controls and complying with legal and regulatory requirements. It also seeks to create a culture of privacy by promoting employee awareness. The policy applies to all employees, including contractual employees and interns. Our commitment to data privacy is evident from our emphasis on protecting personal information, which is crucial in today's digital age, where data breaches are a constant threat. The policy helps to build trust among our customers and stakeholders, demonstrating our commitment to data privacy and protection.

Our Privacy Policy is available on our Intranet and is communicated to all relevant stakeholders as needed.

6. Provide details of any corrective actions taken or underway on issues relating to advertising and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

No product recalls or penalties from regulatory authorities regarding safety and product quality were recorded in the reporting year. Therefore, no corrective actions are needed or required.

At Granules, we have established strong quality systems to prevent such issues. These systems ensure our products are safe and high-quality throughout their shelf life. Our commitment to quality helps us avoid any problems and maintain the trust of our customers and regulatory bodies. We continuously monitor and improve our processes to uphold these high standards and ensure the best outcomes for our consumers.

7. Provide the following information relating to data breaches:

a. Number of instances of data breaches along with impact:

At Granules, there were no instances of consumer and product data breaches during the reporting year.

b. Percentage of data breaches involving personally identifiable information of customers:

No incidents involving a breach of personally identifiable information were recorded in the reporting year.

c. Impact, if any, of the data breaches

Nil

Leadership Indicators

1. Channels / platforms where information on products and services of the Company can be accessed All our product catalogues are available on our website. The respective links are provided below:
