Business Responsibility and Sustainability Report

Dear Stakeholders,

Sustainable growth has been the driving force of our vision. This year too, I am happy to report that our Company has made good progress across key sustainability parameters.

Environmental Stewardship

The Company started using solar energy, after having installed 1 MW of solar capacity in its premises. We plan to gradually increase our solar capacity and reduce our dependence on the grid. The Company generated close to 8,627 metric tonnes of briquettes (biofuel) which have an energy value of approximately 1.50 lakhs Gigajoule ('GJ'). We also witnessed a reduction in our Scope 1 and 2 emission intensity per rupee of turnover. We initiated third party ambient air quality assessments, noise monitoring and waste-water analyses to ensure compliance with regulatory guidelines. Sewage Treatment Plants were installed at select Umbergaon facilities to treat domestic waste water, further supporting our efforts to reduce freshwater withdrawal and promote sustainable water usage. Going forward, the Company plans to further expand coverage of such installations at its production facilities.

Our People, our Strength

As at the end of this financial year, our Company employed upwards of 10,500 employees and workers, including contract workers. Our gender ratio continues to indicate a higher proportion of females, most of whom are hired locally. The Company also increased its strength of differently abled staff from 28 last year to 41 this year. DOMS is committed to providing fair and equal opportunity to all employees and workers, without any discrimination.

We are in the process of implementing ISO 9001 (Quality Management System), ISO 14001 (Environmental Management System) and ISO 45001 (Occupational Health and Safety Management Systems) as part of our Integrated Management System. Health & safety of our people is of utmost priority, and we continue to make improvements in our systems and controls.

Governance at the Center of Operations

We have always considered governance at the forefront of all our activities. We continue to make incremental improvements in our processes, controls and systems to build resilience and protect against non-compliance. Various members of the Board, key-managerial personnel and other senior managerial personnel have been tasked with leading matters on regulatory compliances, occupational health and safety, human resource management and development, risk management, IT security and controls, amongst other sustainability linked matters. The Company's Stakeholder Engagement Policy also helps to protect stakeholder interests and instate formal grievance redressal mechanisms.

We are committed to build a Company that grows with purpose. We aspire to and shall continually strive to create value for our stakeholders, in a manner that is ethical, fair and environmentally conscious.

Warm Regards,
Santosh Raveshia
Managing Director

These applicants were later connected with relevant beneficiary banks, brokers and intermediaries to facilitate redressal. These complaints were not per se against any of our services or for non-fulfilment of our obligations, and DOMS only acted as an intermediary to get these complaints resolved.

² All consumer complaints were acknowledged and addressed during the year. In cases where we could not procure a response including evidence of legitimacy, the complaints were deemed closed within a period of 20 days.

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

The Company conducted a materiality assessment to assess those sustainability-related matters which are of significance to the business as well as its stakeholders. The assessment involved the following processes:

- 1. Identification of stakeholders:** We evaluated different categories of stakeholders based on their level of dependence and influence on the business, its operations and/ or products. Basis that, the following broad categories were identified: shareholders, directors, employees and workers, suppliers, distributors, consumers and local residents.
- 2. Identification of sustainability matters:** We shortlisted some sustainability-linked matters from a broader universe of risks and opportunities faced by the Company. These matters were selected based on the nature of business, applicability of the topics in practical sense and guidance given in Sustainability Accounting Standards Board (SASB) Standards.
- 3. Data Collection and Organisation:** A survey was conducted amongst all stakeholders to assess the level of importance each group assigns to select sustainability matters.
- 4. Information Analysis:** The survey results were plotted on a heat map to identify topics by their level of importance to the business and its stakeholders.

Based on the assessment, the below mentioned issues were identified as material sustainability risks and opportunities:

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
ENVIRONMENT					
1	Water Conservation	Risk	While our processes are not water intensive, we use water primarily for cooling, cleaning and domestic use. We are dependent on municipal water and groundwater bores for fulfilling our water requirements. Any shortage of water could have an adverse impact on our operations	We practice rainwater harvesting at our Umbergaon facility, using a catchment pond. The harvested water is directed to refill groundwater bores and replenish our fire hydrant tanks. We further reuse water used for cleaning and cooling to limit our water withdrawal to the extent possible. We have further installed effluent & sewage treatment plants at relevant sites for treatment of industrial and domestic water discharge. The treated water is reused in operations. We are also in the process of increasing our sewage treatment plant coverage.	Negative
2	Waste Management	Risk	The Company's operations result in generation of different kinds of waste, primarily plastic waste. The Company is tasked with its proper disposal and adherence to applicable laws and regulations. We are susceptible to fines or legal action in case of violation.	Kindly refer to Question 3 of Principle 2 for the disposal techniques adopted by the Company for different categories of waste.	Negative
3	Climate Change Adaptation & Mitigation	Risk	Our primary operations are situated in Umbergaon, Gujarat which is in close proximity to the coastline. Hence, the place is exposed to extreme weather conditions, rising water levels and rising temperatures.	The Company has inhouse ventilation, drainage and fire hydrant systems to protect against extreme events. The Company also practices rainwater harvesting to restore ground water levels in the vicinity. The Company is also insured against losses due to extreme weather events.	Negative
SOCIAL					
4	Improving Health and Safety Systems	Risk	Staff members, especially workers working around machines, are susceptible to injury from negligence or error. Further, minor to major accidents may occur in the course of work.	We have developed elaborate safety protocols, led by a dedicated HSE team. Our premises are equipped with health and safety equipment for preventive and corrective control. We are also in the process of implementing ISO 9001 (Quality Management System), ISO 14001 (Environmental Management System) and ISO 45001 (Occupational Health and Safety Management Systems to further improve our systems and controls. Kindly refer to Question 10 of Principle 3 for more details.	Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5	Employee/ Worker Growth & Development	Opportunity	The Company employs more than 10,500 employees and workers (including contract workers). Upskilling and growth of the workforce is of paramount importance and can lead to increasing productivity levels and improved morale.	All employees and workers are provided on-field training during work. Unskilled workers are provided with special training upon meeting specific performance-based criteria. Annual appraisals are conducted for employees and supervisors and feedback is given to improve performance at work. The Company, during the year, has granted ESOPs to over 925 employees from ESOP Plan 2023 to further incentivize and motivate its employees. Exemplary performance at work is recognized and rewarded at Company events.	Positive
6	Product Innovation & Safety	Risk & Opportunity	Risk: Our stationery products are extensively used by children, making product safety of paramount importance. Opportunity: Proactive steps to improve product safety and usage, and innovate and develop products that are of superior quality shall provide a competitive edge to the Company.	The Company is complying with BIS standard IS 9873: Part 1: 2019, wherever applicable. The Company also has EN71 certification, REACH certification and ACMI-AP seal for applicable products. This ensures that our products are safe for use by our consumers in India and abroad. Our product design and R&D teams undertake continuous product reassessments, under varying conditions, to ensure that our products are safe for use at all times. The product's composition and design are continuously enhanced to improve usability, safety, and efficiency.	Negative (risks) and Positive (opportunities)
7	Stakeholder Engagement	Opportunity	The Company deals with multiple stakeholders. It is the Company's responsibility to protect stakeholder interests, alongside its own and ensure transparency and regular communication of relevant matters. The Company takes this as an opportunity to better understand stakeholder needs and improve its own performance.	The Company has adapted a Stakeholder Engagement Policy that guides structured communication and grievance redressal. The Company regularly communicates with all stakeholders at different levels. Kindly refer to Question 2 of Principle 4 for more details.	Positive
GOVERNANCE					
8	Corporate Governance and Business Ethics	Risk & Opportunity	Risk: Like all other businesses, we are susceptible to negligence or override of controls due to human errors or conflicts. It may lead to non-compliance, damage to environment or loss of business. Opportunity: However, with sound governance practices, we can further improve our business results. High levels of integrity can improve work culture and positively impact employee morale.	Our risk management plan addresses all material risks, including sustainability risks. Relevant policies, checks and controls have been implemented to prevent non-compliance or misuse of authority.	Negative (risks) and Positive (opportunities)

PRINCIPLE 2 Businesses should provide goods and services in a manner that is sustainable and safe

Essential Indicators

1. **Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.**

(₹ in lakhs)

Particulars	FY 2024-25	FY 2023-24	Details of improvements in environmental and social impacts
R&D	-	-	Refer note below
Capex	558.68 (4.22%)	210.15 (1.73%)	Refer note below

Note:
Research and Development Process:

Our research and development team ensure that our products are safe, non-toxic, user friendly, cost-effective and involve minimum wastage. Over the years, the Company has constantly built on its learning curve and has introduced numerous interventions that have a positive environmental and social impact. These include use of recycled material, inhouse recycling, product safety compliance and product reassessments.

The Company regularly undertakes Lifecycle Assessments (LCA) for its products with an aim to make our product formulations safer and environmentally friendly. We have further initiated projects to replace plastic / PVC based packaging with eco-friendly paper packaging in our products, wherever possible.

These processes have been developed over time and hence no research and development costs are specifically allocable to these activities.

Capital Expenditure:

The Company regularly makes capital expenditure in technologies/ equipment that contribute positively to environment and other social factors. During FY 2024-25, The Company has invested in solar power generating systems, water treatment plants, and other plant safety systems.

2. **a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

Yes, the Company has implemented a Responsible Supply Chain Policy (<https://domsindia.com/policies/>) that extends to all recurring suppliers and vendors. Contractual terms have been inserted in our purchase orders and new contracts to ensure implementation of the policy. The Company also exercises due diligence when evaluating new partners and monitoring existing partners for any violations.

- b. If yes, what percentage of inputs were sourced sustainably?**

100%. All our recurring vendors and suppliers are covered under the Responsible Supply Chain Policy.

3. **Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.**

Type of waste	Process
Plastic Waste	Post-consumer Plastic Waste In line with the Extended Producer Responsibility (EPR) norms applicable to our Company, we have tied-up with authorized third-party Plastic Waste Processors (PWP) for collection of post-consumer plastic wastes on our behalf. Plastic waste so collected is suitably recycled and the Company is granted 'Certificate of Recycling' to this extent. Pre-consumer Plastic Waste The Company reuses most of its polymer-based waste generated in its manufacturing processes. The plastic-based waste that cannot be re-used internally, is either sent back to the suppliers or sent to plastic scrap dealers, in compliance with applicable laws and regulations for disposal of such plastic waste.
Electronic Waste	E-waste generated as a result of our operations is either reused internally or sold to authorised vendors who manage the waste suitably.

Type of waste	Process
Hazardous Waste	Waste water is treated through inhouse effluent treatment plants. The waste sludge generated from effluent treatment is disposed to authorized landfill facilities (TSDF site), in line with applicable regulations.
	All other hazardous waste is disposed through authorized agencies in line with applicable regulations.
Sawdust	The Company recycles sawdust from processing of wood-based products to produce wood briquettes. These briquettes are either used for heating (as a replacement to other forms of fuel/energy) or sold to dealers for resale.
Others	All other waste is disposed through authorized agencies in line with applicable regulations.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, DOMS is compliant with the requirements of Extended Producer Responsibility (EPR) under the Plastic Waste Management Rules, 2016, as amended from time to time.

b. Gross wages paid to females as % of total wages paid by the entity, in the following format:

	FY 2024-25	FY 2023-24
Gross wages paid to females as % of total wages	43.15%	45.00%

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes. The Company has an 'Internal Complaints Committee' that handles human rights complaints, including complaints on sexual harassment. The Committee comprises of four persons, including an external consultant and is presided by a senior female employee. Further, employees or workers are encouraged to communicate any grievances to their respective supervisors or the HR department.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Committee addresses grievances related to human rights issues using the following two mechanisms:

i. Resolution through conciliation

If any complaint is received by stakeholders, before initiating the inquiry, the Committee if requested by the aggrieved person shall undertake necessary steps to conciliate the complaint between the complainant and the person/s against whom the complaint is filed.

ii. Resolution through formal inquiry

- In case of a formal inquiry, the Committee members hear the complainant and record the allegations. The complainant may also submit corroborative material to substantiate the complaint.
- The Committee members investigate the matter, which may include inquiring with the person/s against whom the complaint is filed, collecting evidence through witnesses and involving other people, for conducting tasks relevant to the investigation.
- The Committee provides every reasonable opportunity to the complainant and the person/s against whom the complaint is filed for putting forward and defending their respective case.
- While conducting the inquiry, a minimum of three Committee members including the Presiding Officer are present. The employer is required to provide all necessary assistance for the purpose of ensuring full, effective and speedy implementation of the policy.
- Where violation occurs because of an act or omission by any third party or outsider, the Company shall take all necessary steps and reasonable measures to assist the affected person in terms of support and preventive action.
- The inquiry is completed with submission of the Inquiry Report, within 90 days from the date on which the inquiry commences and relevant disciplinary action is taken by the employer. The inquiry procedure is conducted with absolute fairness to all parties.

6. Number of Complaints on the following made by employees and workers:

	FY 2024-25			FY 2023-24		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks
Sexual Harassment						
Discrimination at workplace						
Child Labour						
Forced Labour/ Involuntary Labour

Other human Rights related issues						

No such complaints were filed by any employees or workers

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:

	FY 2024-25	FY 2023-24
Total Complaints reported under Sexual Harassment on of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH)		
Complaints on POSH as a % of female employees / workers		
Complaints on POSH upheld		

No such complaints were filed by any employees or workers

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

- We have a detailed mechanism to prevent adverse consequences to the complainant in our Human Rights Policy, Whistle Blower and Vigil Mechanism, and Grievance Redressal Policy for Prevention of Sexual Harassment at Workplace.
- The identity of the complainant, person/s against whom the complaint is filed, witnesses, statements and other evidence obtained during the inquiry process, recommendations of the Committee, action taken by the employer is considered as confidential material and not published or made known to public or media. Any person contravening the confidentiality clauses is subject to disciplinary action.
- During the pendency of the inquiry, on a written request made by the complainant, the Committee may recommend to the employer to provide interim relief in the form of transfer, leave or other mechanism that may be appropriate to prevent adverse consequences to the complainant.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

The Company has initiated the process of including human rights requirements in all its new business agreements and contracts. The Company has implemented a Code of Conduct and Ethics that addresses these issues. Further, we exercise due care when contracting with external vendors and partners and keep an active vigil for any human rights violations.

10. Assessments for the year:

% of your plants and offices that were assessed (by entity or statutory authorities or third parties)	
Child Labour	All plants and offices are assessed internally for these matters, including compliance with
Forced/involuntary Labour	laws that inhibit these acts. Further, the Company's internal audit also covers inspection
Sexual harassment Discrimination at Workplace	for child labour and minimum wages.
Wages	

11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above.

No adverse findings relating to human rights were observed during the internal assessment

PRINCIPLE 6

Businesses should respect and make efforts to protect and restore the environment

Essential Indicators

1. Details of total energy consumption (in Giga Joules) and energy intensity:

Parameter	FY 2024-25	FY 2023-24
From renewable sources		
Total electricity consumption (A)	1,285	-
Total fuel consumption (B)	-	-
Energy consumption through other sources [Recycled wood briquettes] (C)	60,127	46,997

Energy intensity in terms of physical Output [GJ per million numbers²]	43.76	84.57

¹PPP conversion rate of 20.66 has been used, as published by the International Monetary Fund

²The unit of measurement varies for each product category, however the units are consistent for corresponding products over the two years shown above, to facilitate comparison.

Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (YES / NO) If yes, name of the external agency.

No such independent assessment has been conducted

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (YES / NO) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

No, the entity does not have any sites/ facilities identified as DCs under the PAT scheme.

3. Provide details of the following disclosures related to water, in the following format:

Parameter	FY 2024-25	FY 2023-24
Water withdrawal by source (in kiloliters ('KL'))		
(i) Surface water	-	-

Water intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP)	1.56	2.18
(Total water consumption / Revenue from operations adjusted for PPP) [KL per USD lakh]		
Water intensity in terms of physical Output [KL per million numbers¹]	2.11	4.94

¹ The unit of measurement varies for each product category, however the units are consistent for corresponding products over the two years shown above, to facilitate comparison.

² The figures for FY 2023-24 have been restated vis-à-vis the previous year's report due to reclassification of unusable water which is considered as water consumed.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (YES / NO) If yes, name of the external agency.

No such independent assessment has been conducted

4. Provide the following details related to water discharged:

Parameter	FY 2024-25	FY 2023-24
Water discharge by destination and level of treatment (in kilolitres ('KL'))		
(i) To Surface water		
- No treatment	-	-

¹Water discharged to septic tanks and soak pits

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (YES / NO) If yes, name of the external agency.

Yes, an independent waste water analysis was conducted by a NABL accredited and GPCB approved agency- Eco Clean Consulting LLP.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

The Company has effluent treatment plants, wherever required, that treat industrial waste water for safe disposal. Using primary and tertiary treatment techniques, chemicals, effluents and other impurities are separated from water into sludge, which is disposed suitably to agencies authorized by applicable regulators, and the treated water is reused in operations. The Company also recycles water used for cooling and cleaning in operations to avoid liquid discharge. Further, the Company installed sewage treatment plants during FY 2024-25 to treat domestic waste water at select manufacturing sites. The treated water was channelized for reuse in operations.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:¹

Parameter	Please specify unit	FY 2024-25	FY 2023-24
Nox	ppm	6.20	16.50
Sox	ppm	8.53	29.40
Particulate matter (PM)	mg/Nm ³	17.41	81.20

Hazardous air pollutants (HAP)		NA	NA
Others— please specify		NA	NA

¹Average across different sites has been taken

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (YES / NO) If yes, name of the external agency.

Yes, the Company conducted independent stack monitoring and ambient air quality assessments with an NABL accredited and GPCB approved agency- Eco Clean Consulting LLP.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available) ¹	Metric Tonnes of CO ₂ e	402.11	339.13
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available) ²	Metric Tonnes of CO ₂ e	41,116.54	40,381.14
Total Scope 1 and Scope 2 emission intensity per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)	Metric Tonnes of CO ₂ e per ₹ lakh	0.24	0.29
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations adjusted for PPP)	Metric Tonnes of CO ₂ e per USD lakh	5.02	6.71
Total Scope 1 and Scope 2 emission intensity in terms of physical output¹	Metric Tonnes of CO ₂ e per million numbers ³	6.78	15.23

¹Scope 1 emissions have been calculated using UK Defra 2025 GHG conversion factors

²Scope 2 emissions have been calculated using CEA-published grid emissions factors

³The unit of measurement varies for each product category, however the units are consistent for corresponding products over the two years shown above, to facilitate comparison.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (YES / NO) If yes, name of the external agency.

No such independent assessment has been conducted

8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

The Company has undertaken the following activities to reduce its Green House Gas Emissions:

- Wood Briquettes as a 'biofuel':** Wooden pencils contribute to about 23% of the Company's overall sales. In the process of manufacturing these pencils, the Company collects a large amount of sawdust, a combination of leftover wood shavings and lead. The Company recycles the sawdust into briquettes, using its wood briquettes production plant. The briquettes so generated have a high calorific value and help the Company substitute other fuels for heating in its furnace. The Company successfully produced briquettes with an energy capacity of approximately 1.50 lakhs GJ during the current financial year. These briquettes are either used for heating (as a replacement to other forms of fuel/energy) or sold to dealers for resale.
- Use of cultivated wood:** Defying the conventional perception, all wooden slats used in the production of wooden pencils are sourced through cultivated plantations and not through elimination of forest cover. Cultivation of these trees leads to negative greenhouse gas emissions or in other words, helps absorb CO₂ till the trees are ready for harvest.
- Renewable energy sources:** The Company invested in 1 MW off installed solar capacity and generated 1,285 GJ of solar energy during the year. The Company plans to expand its use of solar energy in the coming years.

9. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2024-25	FY 2023-24
Total Waste generated (in Metric Tonnes ('MT'))		
Plastic waste ¹ (A)	303.14	69.05

- 10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

At DOMS, we have built a conscious culture to reduce waste as much as possible. Our manufacturing processes are designed in a way that ensure maximum use of raw materials, and reconditioning of leftover materials for reuse in processes.

Recycling

We recycle leftover polymer released after moulding polymer-based products in subsequent batches through various process interventions. A similar activity is done for other materials like graphite and calcium carbonate. The Company recycled close to 370 metric tonnes of polymer granules during the year.

Reuse

The Company reuses crates, metal containers, plastic drums and cartons used for storing and transportation. We often return these products to our vendors for reuse or undertake safe disposal of such products as per applicable regulations. The Company also reuses water from cleaning and cooling to reduce waste water discharge. The Company purports handling material with care, to ensure that we may use our resources judiciously and for a longer time.

Disposal: Kindly refer to Question 3, under Principle 2 for disposal techniques adopted by the Company for different categories of waste.

- 11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:**

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (YES / NO) If no, the reasons thereof and corrective action taken, if any.
Not Applicable			

- 12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:**

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not Applicable					

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (YES / NO).

The Company maintains compliance with applicable environmental laws and regulations as on March 31, 2025. For the matter discussed below, corrective actions have been taken and the Company remains committed to complete alignment with the applicable regulations. If not, provide details of all such non-compliances, in the following format:

S. No.	Specify the law / regulation/guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
1	Non-Compliance with State Pollution Control Norms	One of the Company's plant located at GIDC, Umbergaon received a closure notice from the Gujarat Pollution Control Board, Gandhinagar on April 05, 2024. However, the notice was revoked upon payment of an interim environmental compensation. The Company has made necessary stock exchange filings in this respect.	An Interim Environmental Compensation of ₹ 2.85 lakhs was paid to GPCB	Corrective Actions have been taken

PRINCIPLE 7

Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1. **a. Number of affiliations with trade and industry chambers/ associations.** Eight
- b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.**

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	The Art and Creative Material Institute Inc.	International

3	Federation of Industries of India	National
4	Pen and Stationery Association of India	National
5	CAPEXIL	National
6	Umbergaon Industries Association	State
7	Southern Gujarat Chamber of Commerce and Industries	State
8	Bari Brahmana Industries Association	State

2. **Provide details of corrective action taken or underway on any issues related to anti- competitive conduct by the entity, based on adverse orders from regulatory authorities.**

Not applicable.

PRINCIPLE 8 Businesses should promote inclusive growth and equitable development

Essential Indicators

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not applicable.					

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In ₹)
Not applicable						

3. Describe the mechanisms to receive and redress grievances of the community.

The Company regularly interacts with local residents and community members on matters of joint interest such as use of land, impact on biodiversity, employment generation, and health and safety amongst others. While there have been no instances of complaints, we try to resolve any conflicts through active dialogue with the community members. Our Stakeholder Engagement Policy and Whistleblower and Vigil Mechanism Policy have a mechanism to receive complaints from all stakeholders including local communities and contact details have been given therein. The said Policy is available on the Company's website at: <https://domsindia.com/policies/>.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers¹:

	FY 2024-25	FY 2023-24
Directly sourced from MSMEs/ small Producers	22.83%	29.61%
Directly from within India	87.98%	85.91%

¹Considering the guidelines issued by the Industry Standards Forum, input material sourced includes capex procured. Accordingly, previous year numbers have been aligned to include capex procured.

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost

Location	FY 2024-25	FY 2023-24 ¹
Rural	-	-
Semi-urban	98.33% ¹	97.98% ¹
Urban	0.25%	0.36%
Metropolitan	1.42%	1.66%

(Places categorized as per RBI Classification System- rural / semi-urban / urban / metropolitan)

¹Some portion of our manufacturing plants fall within the boundaries of rural areas; however due to difficulty in segregating the employees and workers, the primary location of operations has been considered as Semi urban.

PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators
1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

We are committed to providing our consumers with high-quality products, which go through numerous internal as well as external quality control checks before finally reaching the end consumer. However, issues do arise due to human lapses or unforeseen situations. In those cases:

- Consumers can register their complaints by calling the toll-free number mentioned on the product labels, on weekdays during business hours. Consumers may also share their complaints at info@domsindia.com.
- Upon receiving the complaint via phone or email, we generally acknowledge the request within 2-4 business days. A dedicated customer service representative is assigned to investigate the complaint and work towards a resolution.
- We keep consumers informed of the progress and aim to resolve it within 2-7 business days. Depending on the nature of the complaint, possible resolutions may include product replacement or refund. In all cases, our liability is restricted to the replacement of the product.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

As a percentage to total turnover	
Environmental and social parameters relevant to the product	All our products contain the necessary information required under
Safe and responsible usage	applicable laws, rules and regulations on the safe use, disposal and
Recycling and/or safe disposal	environmental parameters, wherever relevant.

3. Number of consumer complaints in respect of the following

	FY 2024-25			FY 2023-24		
	Received during the year	Pending resolution at end of year	Remarks	Received during the year	Pending resolution at end of year	Remarks
Data privacy						
Advertising						
Cyber-security						
Delivery of essential Services						
Restrictive Trade Practices						
Unfair Trade Practices						
Others	243*	-	-	321	-	-

*These include complaints received from consumers with respect to the product and/ or its packaging

4. Details of instances of product recalls on account of safety issues:

	Number	Reasons for recall
Voluntary recalls		
Forced recalls		

The Company had no product recalls

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Yes. The Company has an 'Information Technology Policy' that details the Company's use of IT infrastructure and deploys preventive methods to protect against cyber security. The Company has implemented necessary controls including creation of periodic backups, regular patching, system audits, use of antivirus and firewalls, password and software licensing policy and email usage policy. Security arrangements have been made with third party cloud service providers as well to ensure that information hosted on third party data centers are secure.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

Not Applicable.

7. Provide the following information relating to data breaches:

- **Number of instances of data breaches**
- **Percentage of data breaches involving personally identifiable information of customers**
- **Impact, if any, of the data breaches**

There were no instances of data breaches in FY 2024-25
