The Company ensures that all necessary approvals, as mandated by applicable laws and internal policies, are obtained prior to entering into transactions with such entities or individuals. Furthermore, the Board committees are appropriately constituted with adequate representation of Independent Directors, in compliance with regulatory requirements concerning composition and independence. Only members free from any conflict of interest serve on the Audit Committee and the Nomination and Remuneration Committee.

No material Related Party Transactions (RPTs) with entities associated with Directors and Senior Executives were undertaken during the year.

PRINCIPLE 2

Businesses should provide goods and services in a manner that is sustainable and safe

Essential Indicators

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY 2024-25 Current Financial year	FY 2023-24 Previous Financial year	Details of improvements in environmental and social impacts
R&D	0.18%	0.23%	All R&D Investments are focused at sustainable technologies and on principles of green chemistry. Development of sustainable technologies, improvement energy efficiencies, wastewater treatability, among others. etc.
Capex	8.06%	9.43%	The Company's R&D division is dedicated to ongoing efforts in developing and delivering excellent manufacturing solutions. The Company reviews its manufacturing processes to achieve energy optimisation, aiming to emit minimal or even zero effluents. These efforts incorporate the adoption of cutting-edge technologies, resulting in end-products that are both highly energy-efficient and affordable, while offering an extended lifespan.

2. **a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

Yes, the Company sources materials from identified and sustainable suppliers, promoting a positive impact on the environment and communities. Moreover, the Company emphasises the extension of the sustainability agenda to its suppliers/vendors by enforcing a Code of Conduct. This code serves to ensure that suppliers/vendors adhere to safe working conditions, while strictly prohibiting child labour, and violations of human rights principles in their supply chain operations.

- b. If yes, what percentage of inputs were sourced sustainably?**

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

The Company adheres to the guidelines set by the Gujarat Pollution Control Board (GPCB) for the recycling, disposal, and reuse of products. The details of our compliance procedures are outlined below:

- **Packaging:** In line with The Plastic Waste Management Rules, 2016, the Company is registered as a Brand Owner on the Extended Producer Responsibility (EPR) portal. We ensure that an equivalent quantity of plastic material introduced into domestic market is collected through an authorised waste management agency for recycling and energy recovery under the EPR framework.
- **E-Waste:** E-waste is sent to authorised vendors and recyclers for proper processing and recycling.
- **Hazardous Waste:** Hazardous waste is managed through authorised recyclers, secured landfills, and incineration facilities to ensure safe disposal.
- **Other Waste:** Non-hazardous waste is disposed of through registered vendors, while bio-medical waste is directed to a common bio-medical waste incineration facility authorised by authorities for safe disposal.

4. **Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes/No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.**

Yes, the plastic waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to the Central Pollution Board.

Leadership Indicators

- Has the entity conducted Life Cycle Perspective/Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?

NIC Code	Name of Product/Service	% of total Turnover contributed	Boundary for which the Life Cycle Perspective/Assessment was conducted	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No) If yes, provide the web-link.
----------	-------------------------	---------------------------------	--	---	--

The Company does not currently conduct Life Cycle Assessments (LCA). However, it is actively exploring the implementation of LCA as part of its sustainability journey.

- If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products/services, as identified in the Life Cycle Perspective/Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

Name of the Product/Service	Description of Risk/Concern	Remarks
Finished Products (Quartz Kitchen Sinks, Quartz Basins, Quartz Designer Tiles)	- Generation of Packing Waste - Resource depletion resulting from product rejections at the customer end	- The packaging materials used are fully recyclable, and instructions are provided to customers to ensure proper disposal as per local regulatory authority guidelines. - For rejected products: - If the product is returned by the customer, it is either reworked to meet quality standards or disposed of responsibly in accordance with environmental compliance norms. - If the product is not returned, the customer is responsible for disposal in line with regulatory norms, ensuring minimal environmental impact.
Final Product (In the form delivered to end user)	Scrap Generation at End of Product Life The environmental impact at the end-of-life stage of the product is highly dependent on how the end user disposes of it, which is beyond the direct control of the Company.	- End-of-life disposal is handled by end users according to local environmental regulations. - To encourage environmentally responsible behavior, the Company has ensured that recyclable logos are visibly displayed on both the product and its packaging materials, promoting proper waste segregation and recycling.

3. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, the coverage such system?

Yes, the Company has implemented an Occupational Health and Safety Management System (OHSMS) in compliance with ISO 45001:2018, the international standard for occupational health and safety. This system is fully integrated across all operational areas, including manufacturing facilities, corporate offices, and R&D laboratories. It ensures adherence to applicable legal and regulatory requirements while safeguarding the health and safety of employees, contractors, visitors, and other stakeholders, along with promoting environmental protection.

The Compliance Manager plays a key role in overseeing the effective implementation and monitoring of the OHSMS, ensuring that all safety protocols are followed diligently. With 100% coverage across all locations and operations, the Company demonstrates its strong commitment to workplace safety, regulatory compliance, and continuous improvement.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Process Wise Hazard Identification and Risk Assessment (HIRA): The entity employs HIRA to systematically identify and assess potential hazards and associated risks for both routine and non-routine activities.

Risk Assessment: Comprehensive risk assessments are conducted to evaluate the level of risk and implement appropriate control measures to mitigate identified hazards.

Safe Work Permit System: A Safe Work Permit System is in place to ensure that any high-risk activities are performed under controlled conditions, with all necessary safety precautions and approvals.

Additional Measures

- 1) Frequent Reviews: Regular reviews are conducted to continuously identify and assess work-related hazards and risks, ensuring that both routine and non-routine activities are consistently monitored.
- 2) Employee Training: Employees receive ongoing training to enhance their awareness and understanding of hazards and risks, ensuring they are equipped to work safely.

c. Whether you have processes for workers to report the work related hazards and to remove themselves from such risks. (Y/N) –Yes

In compliance with Gujarat Factory Rules, workers actively participate in safety committee meetings to promote a safe and healthy work environment. These meetings serve as a platform for workers to report any work-related hazards they encounter during operations. The Safety Committee thoroughly reviews these reports and ensures that appropriate mitigation measures are implemented to eliminate or reduce identified risks.

Compliance/Safety Department is responsible for conducting safety committee meetings at regular intervals, with a standard frequency of once every three months. This structured approach ensures continuous engagement, regulatory compliance, and effective monitoring of workplace health and safety practices.

d. Do the employees/worker of the entity have access to non-occupational medical and healthcare services? (Yes/No)

12. Describe the measures taken by the entity to ensure a safe and healthy work place.

Safety Infrastructure:

The workplace is equipped with essential safety infrastructure, including a fire hydrant system, fire extinguishers, fire alarm systems, and other fire suppression mechanisms to ensure preparedness for emergencies.

Engineering Controls:

Based on hazard identification and risk assessment, the Company has implemented engineering controls such as sensor-based machine interlocks and protective guards for moving parts, thereby minimising potential risks at the source.

Training and PPE:

The Compliance Department, in coordination with the Safety Team, regularly organises training programmes to ensure adherence to statutory safety requirements. Periodical medical examinations are conducted as mandated by law. All workers are equipped with necessary personal protective equipment (PPE), including safety shoes, and are trained to comply with Environment, Health, and Safety (EHS) guidelines.

ISO Certification and Performance:

Carysil is certified under ISO 45001:2018 and has successfully completed periodic ISO audits. The Company continuously assesses health, safety, and environmental performance across all locations. Under the active supervision of the Compliance Department, no major accidents were reported in the past year, reflecting the effectiveness of the implemented safety measures and culture of compliance.

4. **Do you have a focal point (Individual/Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)**

Grievance Redressal and Human Rights Commitment

The Company has established a dedicated Grievance Cell to monitor and address all employee grievances effectively. An Open Door Policy is in place, supported by internal mechanisms that allow employees to directly raise their concerns with senior management in a transparent and approachable manner.

The Company believes that sustainable business growth is possible only in a society where human rights are respected and protected. It is therefore committed to upholding human rights across all its business operations. Employees are encouraged to realise their full potential through positive feedback and access to development opportunities. The Company strives to provide fair compensation, ensure good working conditions, maintain high standards of integrity, and comply fully with all relevant constitutional and regulatory requirements.

To promote a safe and inclusive working environment, the Company has constituted Prevention of Sexual Harassment (POSH) Committees across the organisation. These committees are responsible for addressing any complaints of sexual harassment and taking appropriate actions in a timely and just manner.

As part of its ongoing commitment to employee welfare, the Compliance Department conducts grievance and POSH meetings every three months to ensure continuous monitoring and redressal of concerns.

5. **Describe the internal mechanisms in place to redress grievances related to human rights issues.**

Grievance Redressal Procedure

1. Initial Complaint

The first stage in the grievance redressal process is for the employee to raise a complaint with their direct supervisor or the respective Departmental Head (HOD). The concerned authority shall address and resolve the complaint within seven days.

2. Recording the Complaint

Upon receipt of a complaint, the HR Manager or the respective Departmental Head shall document it in the Grievance Redressal Register to ensure proper tracking and resolution.

3. Escalation to HR

If the complaint is not resolved at the departmental level within the stipulated time, the employee may escalate the matter to the HR Department (HR Manager or HOD). The HR team will then attempt to resolve the grievance within seven days.

4. Further Escalation to Compliance and Management

If the issue remains unresolved, the complainant may approach the Compliance Manager and Director – Operations or Chief Financial Officer (CFO). At this stage, a resolution will be sought within seven days, and an immediate meeting with the Grievance Committee members shall be arranged if required.

5. Grievance Committee Proceedings

Upon receipt of a written grievance application, the Grievance Committee, consisting of designated representatives and members, shall complete its investigation and proceedings within forty-five days.

6. Appeal Process

If the employee is dissatisfied with the decision of the Grievance Redressal Committee, they may submit an appeal to the Employer. The Employer shall review and dispose of the appeal within one month from the date of receipt and provide a written decision to the concerned employee.

6. Number of Complaints on the following made by employees and workers:

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:

The Company has implemented a prohibition of sexual harassment policy aimed at addressing workplace discrimination and harassment. In line with this policy the Company has established an internal complaint committee responsible for handling cases related to discrimination and harassment. As a part of the process, the complainant's identity is kept confidential throughout the investigation. The presiding officer of the internal complaints committee (ICC) is a senior individual within the Company who possesses relevant experience and a contextual understanding of the appropriate course of action in sexual harassment cases. The decision regarding the action to be taken against the employee is made in consultation with an external ICC member. Overall, the ICC ensures that the principles of natural justice are adhered to throughout the process. Moreover, the

Company has a whistle blower policy in place that offers various protections to individual reporting any unethical practice happening in the workplace.

*The above calculations are in accordance with Part B, Attribute 1 of the Industry Standards Note (December 2024) on the Business Responsibility and Sustainability Report (BRSR) Core, jointly issued by ASSOCHAM, CII, and FICCI, pursuant to Regulation 34(2) of the SEBI (LODR) Regulations, 2015, and as per SEBI Circular No. SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122.

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, the Independent evaluation was conducted by Royal Stancert B.V.

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Transition to Renewable Energy

The Company has discontinued the use of fossil fuels such as Light Diesel Oil (LDO) and Natural Gas for its energy needs. As part of its commitment to sustainability, solar panels have been installed to harness renewable energy. Furthermore, the Company has initiated the construction of a dedicated solar farm to enhance its renewable energy capacity.

By the next reporting year, it is projected that approximately 40% of the Company's total energy consumption will be sourced from renewable energy, marking a significant step towards reducing our carbon footprint and promoting environmental responsibility.

9. Provide details related to waste management by the entity, in the following format:

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment, evaluation, or assurance has been undertaken by an external agency to date in relation to our operational practices, performance metrics, or compliance with applicable standards and regulatory frameworks.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Company has established a comprehensive Standard Operating Procedure (SOP) for the handling and safe disposal of hazardous waste materials. This SOP ensures compliance with applicable environmental regulations and promotes responsible waste management practices. Currently, the Company manages and disposes of four types of hazardous waste, in accordance with statutory guidelines and approved methods for safe treatment and disposal.

Plastic Waste – Submitted to authorised recyclers for environmentally compliant recycling.

Process Waste – Safely disposed of at designated TSDF (Treatment, Storage, and Disposal Facility) sites.

Cotton Waste – Transferred to authorised facilities for incineration.

Empty Barrels and Oil Waste – Sent to authorised recyclers for safe treatment and reuse.

The Company ensures that hazardous waste is stored securely in accordance with the permissions granted by the Pollution Control Board. Further, the Company files the required Annual Hazardous Waste Return with the relevant authorities every financial year, demonstrating its commitment to regulatory compliance and environmental responsibility.

11. If the entity has operation/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval/clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
The Company's operations and offices are not located in or around any ecologically sensitive areas.			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant web link
During 2024-25, the Company has not initiated any projects that would require an environmental impact assessment under applicable laws.					

13. Is the entity compliant with the applicable environmental law/regulations/guidelines in India; such as the water (prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment Protection Act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

The Company adheres to all relevant environmental laws and regulations.

Leadership Indicators

1. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):

For each facility/plant located in areas of water stress, provide the following information:

(i) Name of the area - Nil

(ii) Nature of operations - Nil

(iii) Water withdrawal, consumption and discharge in the following format:

There is no water withdrawal, consumption and discharge in water-stressed areas.

2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	2024-25 (Current Financial Year)	2023-24 (Previous Financial Year)
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	782.52	The Company was in the process of initiating data collection to calculate scope 3 emission

Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity		-	

Note: Indicate if any independent assessment/evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.: No.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

The Company Operation and Offices are not situated in or around ecologically sensitive areas.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/ effluent discharge/waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Extended Producer Responsibility (EPR) for plastic packaging	Implemented EPR compliance by ensuring plastic packaging waste is recycled or sent for energy recovery through authorised recyclers.	Promoted circular economy through responsible disposal and recycling of plastic packaging waste.
2	Waste Reduction and Water Recycling	Conducted Zero Liquid Discharge (ZLD) audit to identify leakage points; implemented corrective measures. Installed Sewage Treatment Plant (STP) for water recycling.	Achieved 100% recycling of treated water for gardening and utility purposes, ensuring minimal freshwater usage.
3	Fuel Substitution for Emission Reduction	Replaced Light Diesel Oil (LDO) with Piped Natural Gas (PNG) for industrial use.	Significant reduction in CO ₂ emissions, enhancing air quality and energy efficiency.

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/web link.

Yes, the Company has established a comprehensive Business Continuity and Disaster Recovery Plan for all its locations.

This plan is designed to ensure the Company can maintain operations and adapt effectively in the face of natural calamities, manmade disasters, or unprecedented events. Key components of this plan include:

- **Training and Drills:** Ongoing training and mock drills for employees to prepare them for emergency situations.
- **Adaptability:** The plan is structured to help the Company adjust to disruptions caused by natural calamities or other unexpected events.
- **Continuous Review:** Regular updates to the plan are made based on lessons learned from previous disruptions, such as cyclones, floods, landslides, and pandemics.
- **Risk Management:** Includes periodic risk assessments and the development of appropriate mitigation strategies.
- **Business Interruption Insurance:** Provides coverage for potential losses resulting from business disruptions due to natural calamities.

This plan is continuously reviewed and refined to incorporate insights gained from past events, ensuring resilience and preparedness for future challenges.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

There have been no significant adverse impacts on the environment arising from the entity's value chain during the reporting period.

The entity continuously monitors its operations and supply chain to identify and mitigate any potential environmental risks.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

During the reporting period, the Company did not undertake formal evaluations of its value chain partners specifically based on their environmental impact.

PRINCIPLE 7

Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators
