Governance, leadership, and oversight

7. Statement by director responsible for the business responsibility report, highlighting ESG -related challenges, targets, and achievements

Over the last 13+ years, Fedfina has played a pivotal role in extending affordable financial access across India through a rapidly expanding network of branches. As we continue to scale our impact, we acknowledge the growing responsibility to embed sustainability across every facet of our operations and ecosystem.

In FY 2023–24, we advanced our Environmental, Social, and Governance (ESG) journey with renewed intent and continued the efforts in FY 2024-25. Recognising the complexities of climate-related risks and operational emissions, we undertook a baseline assessment of our greenhouse gas (GHG) emissions, waste footprint, and energy use. In tandem, we also conducted a detailed ESG materiality assessment last year to understand stakeholder priorities and sectoral relevance. These inputs are shaping a structured ESG roadmap—with internal targets, timelines, and actions—to help us transition into a more sustainable future.

As part of our environmental initiatives, we also relocated one of our key office premises to a certified Green Building, underscoring our commitment to energy efficiency, reduced emissions, and sustainable infrastructure.

Our Board-approved ESG Policy anchors this transformation, and we have constituted a dedicated internal Climate Change Committee to steer focused action. On the social front, our efforts remain grounded in responsible lending, financial inclusion, and community development. We continue to uphold a strong people-first culture—validated by being certified a “Great Place to Work” for six consecutive years and recognised among the Top 50 Best Workplaces in India's BFSI sector in 2023.

As we move forward, Fedfina reaffirms its commitment to building a resilient, ethical, and inclusive institution. With ESG principles at the core of our strategy, we are determined to drive value not just for our stakeholders but for society and the planet at large.
