There are also informal channels available wherein customer can register their complaints through fax / email to the concerned department handling that product category and the same is uploaded on the centralised CRM system.

*** Some of the complaints remain unresolved at the end of the year due to non-availability of spare part /sub system from the original supplier, delay in supply due to supply-chain issues or obsolescence of electronic items for which BEL has to find equivalent alternative/design a Form fit equivalent which may take time.

26. Overview of the entity's material responsible business conduct issues:

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Carbon Footprint	Opportunity	With growing concern for Green House Gas (GHG) emissions, BEL is shifting towards tapping "Clean & Renewable" Energy sources for meeting the power requirements.	Not applicable	Positive : Achieving "Carbon Neutral Status" through renewable energy resources and energy conservation measures.
2	Environmental Footprint- Water Management	Risk	Water scarcity can impair the company's operations and disrupt business.	Employee awareness on water management, more efficient use of water in campuses, Rain water harvesting & recycling of wastewater resulting in reduction of wastewater generation.	Negative
3	Community and Social Impact	Risk	Any adversarial relationship with communities can hurt the company's ability to create longer term value.	Focused interventions are undertaken in the sectors of school education, Healthcare, Rural Development, Environmental Sustainability & Vocational Skill Development. BEL contribute towards inclusive growth, sustained and equitable development in society through Capacity building measures, empowerment of the marginalised and underprivileged sections/ Communities.	Negative: Impacts the brand reputation in the industry.
		Opportunity	BEL has undertaken various CSR programmes / initiatives/ projects as per the Company's CSR Policy, which is in-line with Section 135 & Schedule VII of the Companies Act, 2013. BEL integrates its CSR planning with its business plans and strategies. Our company's objective is to support meaningful socio-economic sustainable development and enable a larger number of people to participate and benefit in country's economic progress.	Not applicable	Positive: Supporting the CSR activities helps us to create a meaningful impact for the communities we interact with.
4	Cyber Security	Risk	Privacy and Data Security is becoming a major risk due to increasing digitisation.	Information Security Management Policy and Cyber Security and Cyber Resilience Policy are in place for protecting the Organization's cyberspace against cyber-attacks, threats and vulnerabilities.	Negative: Breach of Privacy and Data Security.
5	Disaster Recovery	Risk	1. Business interruption due to fire hazard.	1. Emergency preparedness and response plan is in place at dept./unit level 2. Mock drills are being conducted regularly for the same.	Negative: Disruption to business operations leads to negative financial implication.

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
6	Training and Education	Opportunity	Skilled employees and workers form an asset to the Company. The highly trained employees and worker perform their tasks more efficiently, in less time and with less chances of injury.	1. Providing a needs-based and innovative range of training courses 2. Providing programmes that are specifically designed for roles which require upgraded skills.	Positive: Consistent efforts would lead to positive impact due to improvement in productivity, reduction in defects, etc.
7	Maintenance	Risk	Risk of sub-optimal maintenance schedule/plan resulting in un-economical maintenance costs.	Operational performance & maintenance (PM & breakdown) are being monitored regularly.	Negative: Business continuity gets impacted leading to financial loss.
8	Environmental Pollution	Risk	Failure to provide a safe working environment exposes BEL to suboptimal productivity, loss of business reputation and other costs.	1. All the necessary pollution control norms for air, noise etc. are followed. 2. Disposal of hazardous waste is monitored within permissible limits.	Negative: Incidents impact business reputation leading to negative financial implication.
9	Health, Safety and Environment	Risk	1. Non-compliance with safety measures by employees. 2. Non-awareness of hazardous nature of material. 3. Not following COVID-19 safety measures.	1. Strict adherence to BBS (behaviour-based safety system). 2. Focus on reducing the generation of effluent and arresting at the source and following MSDS for hazardous material handling. 3. Detailed SOP for COVID-19, employee training & adherence followed strictly. 4. Medical check-up, vaccination drive as per Govt. Regulations.	Negative: Incidents impact employee morale and business reputation leading to negative financial implication.
10	Data Protection	Risk	1. Risk of confidential data leakage via USB drives/flash drives 2. Exposure of Company data because of work from home and access to respective data.	1. All privileged system access are reviewed periodically & data leakage prevention system is implemented at these equipment. 2. Restricted data access control & data encryption to monitor work from home activities.	Impacts the brand reputation in the industry thereby leading to financial loss.

- Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

The Company does not recycle products because most of the products are used for strategic/national security applications. Products delivered to customers are not returned to the company. In few cases products itself comes back for upgradation which will be upgraded and made reusable product. For such product which does not come back to us, guidelines have been provided to customers for handling and disposal of their End of life products. However, services have been provided to customers who are willing to return products for scientific disposal. End-of-life products are scientifically processed and recycled through agency approved by the Pollution Control Board. The company has a structured mechanism to deliver waste from the manufacturing process of its products/equipment through authorised recyclers approved by the Pollution Control Board. Metal waste, waste oil, solvents and copper containing rejects are sent (100%) to authorised recyclers for recycling and recovery. Paper and plastic are handed over to recyclers. In addition, the food waste is used for biogas generation in the Bio-Methanation plant, which in turn is used for light cooking purposes or organic matter are converted to manure in organic waste converter.

- Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities. If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes. BEL has already obtained the registration under the EPR framework under Importer category of Plastic Waste Management Rules. Registrations under Brand owner category under Plastic waste Rules, Producer category under E-waste rules is in progress.

b. Gross wages paid to females as % of total wages paid by the entity, in the following format:

	FY 2024-25	FY 2023-24
Gross wages paid to females as % of total wages	20.56%	20.33%

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business?

The HR Heads and Business Leaders of the Company are responsible for addressing human rights impacts or issues caused or contributed to by the business.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

BEL has established robust systems and mechanisms namely, Internal Complaints Committee (POSH), Employee Grievance Redressal & Monitoring System, Safety, Health & Environment Committee, Whistle Blower Policy and Vigilance set up which have been institutional in redressing grievances related to human rights. Further, the contracts and recruitment policy of BEL prohibit forced / child labour.

6. Number of Complaints on the following made by employees and workers:

	FY 2024-25			FY 2023-24		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:

	FY 2024-25	FY 2023-24
Total Complaints reported under Sexual Harassment on of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH)	02	03
Complaints on POSH as a % of female employees / workers	0.10%	0.16%
Complaints on POSH upheld	00	01

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

It is ensured that no work related adverse consequences are meted out to the Complainant by placing the Complainant & Respondent in different work places, in case both were in the same work place. Moreover, the complainant can report any such incidences to the higher authorities for appropriate action.

9. Do human rights requirements form part of your business agreements and contracts?

Clauses pertaining to Human Rights are incorporated in agreements on case-to-case basis.

10. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	100%
Forced/involuntary labour	100%
Sexual harassment	100%
Discrimination at workplace	100%
Wages	100%
Others – please specify	100%

11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above.

No action was taken since no significant risk / concern was identified.

Leadership Indicators

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/complaints.

The e-Grievance handling mechanism for employees has been designed for speedy redressal of grievance and complaints with respect to employees and addresses complaints related to human rights violations.

2. Details of the scope and coverage of any Human rights due-diligence conducted.

BEL ensures due diligence for human rights in its HR processes viz., recruitment, promotions, training & development, etc., and complies to relevant statutes / Government directives pertaining to Equal Opportunity, Diversity & Inclusion, Equal Remuneration, Prevention of Sexual Harassment, Safety & Health, Working conditions, Prohibition of child labour & forced labour, Anti-corruption, etc.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes. The infrastructure facilities offer a barrier free access to visitors with disabilities. There are ramps, lifts, rest rooms which are Disabled friendly.

4. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Sexual Harassment	Nil
Discrimination at workplace	Nil
Child Labour	Nil
Forced Labour/Involuntary Labour	Nil
Wages	Nil
Others please specify	Nil

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

Not Applicable.

PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment**Essential Indicators**

1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:

Parameter	FY 2024-25	FY 2023-24

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency – No.

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

No.

3. Provide details of the following disclosures related to water, in the following format:

Parameter	FY 2024-25	FY 2023-24
Water withdrawal by source (in kilolitres)		
(i) Surface water	0	1,000

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, a reasonable assurance of the disclosure has been carried out by an independent external agency, Sustainability Actions Private Limited.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Wastewater generated during the manufacturing process is separated at source and is treated appropriately to meet the standards prescribed by the Pollution Control Board. BEL has taken a step forward in treating wastewater to meet reusable standards thus recycling it for production purposes. Likewise, domestic wastewater is treated and recycled for horticultural purposes. The dual plumbing system is a part of the design for all new buildings. The five-star GRIHA-rated BEL Academy for Excellence and C-type residential areas are equipped with dual pumping system.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 2024-25	FY 2023-24
NOx	mg/Nm ³	22.5	24.3
SOx	mg/Nm ³	10.5	11.7

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? If yes, name of the external agency.

Yes, a reasonable assurance of the disclosure has been carried out by an independent external agency, Sustainability Actions Private Limited.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	9,204.38*	8,930.70*
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	17,926	25,572.5

Total Scope 1 and Scope 2 emission intensity (optional) the relevant metric may be selected by the entity	-	-	-

* Source of emission factors taken from IPCC 4th assessment report.

* In addition to Scope 1 emission mentioned above following is the emissions from biogenic sources for the year 24-25: 70.31 MT of CO₂ emissions (from Biogas Plant)

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? If yes, name of the external agency.

Yes, a reasonable assurance of the disclosure has been carried out by an independent external agency, Sustainability Actions Private Limited.

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes. BEL has contributed to sustainable development through installation of renewable energy initiatives such as setting up of Wind Power Plants of cumulative capacity 13.9 MW in Davanagere & Hassan districts of Karnataka for captive consumption and also, 7.4 MWp Grid Connected Solar PV Power Plants are cumulatively installed in all units of BEL. All units of BEL have achieved RE100 status in the fourth quarter of the FY through the purchase of green power from state DISCOMs. Green building concept is being followed for all new buildings. For all future buildings, GRIHA rating (Green Rating for Integrated Habitat Assessment) will be targeted. These initiatives help in reducing the release of Green House Gases (GHG) into the atmosphere.

Setting up of an additional 4 MW of wind Power Plant as further enhancement towards Green Energy initiative leading reduction in CO₂ emissions to the environment is in progress and is expected to be completed by March 2026.

9. Provide details related to waste management by the entity, in the following format:

* Quantity disposed appearing more than generation is due to carry forward of waste generated during previous year and disposed in current year.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? If yes, name of the external agency.

Yes, a reasonable assurance of the disclosure has been carried out by an independent external agency, Sustainability Actions Private Limited.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Hazardous Waste Management: When handling with hazardous waste, the principle of reduction, reuse, recovery and recycling is practiced. The production of hazardous waste has been reduced at the process level by introducing appropriate chemicals and procedures that produce less hazardous sludge in the wastewater detoxification process, in addition to the use of cleaner technologies. The use of sodium hypochlorite, and sodium bisulphate in place of lime, bleach powder and iron sulphate help reduce the amount of hazardous sludge. In addition, the introduction of cyanide-free galvanizing and copper plating processes have helped reduce the production of hazardous waste. In the previous year, BEL achieved continual improvement by the elimination of IPA use in HF Oxide etching process in the solar plant. These initiatives resulted in generation of less hazardous waste. Bharat Electronics Limited has set up a system for the safe handling of hazardous waste by creating an exclusive, well-protected place for the safe storage of hazardous waste. BEL has tied up with the State Pollution Control Board's Treatment, Storage & Disposal Facility operators to dispose of solid hazardous waste that can be land filled. Recyclable waste is handed over to authorised facilities of the Pollution Control Board for scientific processing and recycling. This system effectively prevents pollution from hazardous waste.

E- Waste Management: Electronic waste that is generated during the manufacturing of products is segregated, stored and handed over to authorised agencies of the Pollution Control Board for scientific processing, recovery and recycling. End of Life electronic waste such as computers and other electronic items are also handed over to authorised agencies of the Pollution Control Board for scientific processing, recovery and recycling. End of Life e-waste products such as electronic voting machines are received back under Extended Producer responsibility initiative and are disposed scientifically. Users of electronic products receive handling and disposal guidelines for the safe disposal of electronic waste after expiry. Efforts are being made to reduce the hazardous component in electronic products by introducing as many RoHS-compliant components as possible.

Solid Waste Management: BEL has put in place a source segregation system for proper handling of waste. Biodegradable waste such as food waste and green waste of colony is composted through the 1.0 tonne organic waste converter with an average of 0.45 to 0.6 Tons per day, wherein manure is generated. The manure so generated is used for horticulture application in the BEL Estate area. The green waste generated in BEL is subjected to natural composting. Leaf shredding machine is available for reduction of the size of green waste. In addition, the food waste generated in the factory canteen is transported to Bio-Methanation plant on daily basis. The anaerobic biogas plant is based on UASB technology with a capacity of 2.0 tonnes and leads to a saving of about 50 SCM PNG per day in cooking. Land fillable waste is sent to a well-established solid waste treatment facility for processing.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

Sl. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Yes/No) If no, the reasons thereof and corrective action taken, if any.
BEL does not have any operations/offices in/around ecologically sensitive areas.			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not applicable. There are no projects undertaken for EIA assessments during the FY 2024-25					

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules there under. If not, provide details of all such non-compliances, in the following format:

Sl. No.	Specify the law /regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
Yes. BEL is compliant with all the applicable environmental law/ regulations/ guidelines in India such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, and Environment Protection Act and rules there under.				

Leadership Indicators

1. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres): Not Applicable.

For each facility / plant located in areas of water stress, provide the following information:

- (i) Name of the area
- (ii) Nature of operations
- (iii) Water withdrawal, consumption and discharge in the following format:

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. – No.

2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent		
Total Scope 3 emissions per rupee of turnover		Assessment will be taken up	
Total Scope 3 emission intensity (optional) - the relevant metric may be selected by the entity			

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

BEL operates in industrial areas/estates, hence its influence on biodiversity is very minimal.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

SL. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	RoHS-compliant components and processes are introduced to comply with the European & other international directives	Restriction of Certain Hazardous Substance (RoHS) compliant processes have been introduced into the PCB manufacturing and metal finishing processes. - Environmentally friendly materials have been introduced, such as low smoke halogen cables, low VOC metal finish (polyurethane), cyanide-free silver, zinc and copper plating, and trivalent chromium-based chromate conversion coating. - A technical series of document have been published on RoHS compliant cadmium plating alternatives for fasteners and screws. - New standard is released for environmental friendly automated cleaning process of Printed wiring assembly using Aqueous based cleaner replacing the use of Iso-propyl Alcohol.	This helps spread awareness and compliance of RoHS compliant alternatives among BEL's various D&E and quality engineers.
2	Energy conservation/ efficient measure	- Purchase of green energy to meet additional power requirement other than captive RE power. - Installation of cumulative 13.9 MW of wind plants in Davanagere & Hassan, Karnataka and cumulative 2.8 MW Rooftop Solar Power Plants at BE-BG. - All lightings replaced with LED lights in factory & estate areas. - Replacement of reciprocating air compressors with energy efficient oil free screw air compressors. - Old Air Conditioners replaced with energy efficient rated ACs. - Cooling towers replaced with IE-3 rated motor cooling towers. - Installation of VFDs for existing cooling towers. - Reduction in use of fossil fuel energy: Installation of 500 KWP solar power plant, produced 2.29 TJ energy.	BEL has achieved RE-100 status.
3	Water Conservation	Installed Roof top rainwater harvesting system for reuse of water for RO generation; this enables every year to collect 500-600 m3 of rain water of low TDS which in turns result in use of saving about 800-1000 m3 of fresh water.	Achieved "Water Positive Status" through water conservation measures adopted.

		2) Innovative recharging of bore wells enable us to collect the runoff water adjacent to the building and near to the borewells for facilitating recharging of aquifers. 45 recharge pits have been created in BG campus of 685 acres. Overflow from recharging pit is diverted to large-scale rainwater harvesting reservoir having capacity of 170 million liters with expected annual yield of around 234 million liters. 3) Re-use of tertiary treated wastewater for horticulture application in order to conserve fresh water resource. 4) Several water conservation projects like automation of desmearing process for demand based water supply, automation of bore well water drawing system, level controller for water tanks, efficient dish washing system and the use of swill water with air agitation are implemented for conserving water. Implementation of these water conservation projects have led to a consistent reduction of water consumption each year. 5) Installation of sewage treatment plant of 300 KLD at Kotdwara Unit for achieving Zero liquid discharge.

Independent Assurance Statement

Scope and Approach

Sustainability Actions Private Limited ("SAPL") has been engaged by the management of Bharat Electronics Limited ("BEL" or "the Company"), as an Independent Reasonable Assurance Provider of the Company's Business Responsibility and Sustainability Report (BRSR) Core Matrices (refer to Annexure I) for the Financial Year 2024-25.

Reporting Criteria

Our reasonable assurance covers the sustainability Information listed in Annexure-I of this report. The reporting boundary is disclosed in Question 13 of Section A: General Disclosure of the BRSR, with exceptions noted under respective questions.

The criteria utilized by the Company to prepare the identified sustainability information are as follows:

- Regulation 34(2)(f) of the Securities and Exchange Board of India (SEBI) (Listing Obligations and Disclosure Requirements), Regulations, 2015, as amended;
- Chapter IV-B of SEBI master circular for compliance with the provisions of the SEBI (LODR) Regulations by listed entities, issued vide SEBI/HO/CFD/PoD2/CIR/P/0155 and dated November 11, 2024;
- "Guidance Note for Business Responsibility and Sustainability Reporting Format" by Securities and Exchange Board of India (SEBI); and
- SEBI/HO/CFD/PoD-1/P/CIR/2024/177 dated December 20, 2024 – Industry Standards Note on Reporting of BRSR Core.
- SEBI/HO/CFD/PoD-1/P/CIR/2025/42 dated March 28, 2025 – Measures to facilitate ease of doing business with respect to framework for assurance or assessment, ESG disclosures for value chain, and introduction of voluntary disclosures on green credits.

Management Responsibilities

The Company's Management is responsible for identification of key aspects, content and presentation of the Business Responsibility and Sustainability Report in accordance with the Criteria mentioned above. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of the Business Responsibility

and Sustainability Report and measurement of BRSR Core Matrices which are free from material misstatement, whether due to fraud or error.

Independence and Quality Control

We are independent from the entity in accordance with the requirements of independence and quality assurance set out in BRSR provisions and professional pronouncements and have fulfilled our additional professional obligations in accordance with these requirements.

Our assurance engagements are based on the assumption that the data and information provided by the company to us as part of our review have been provided in good faith and free from material misstatements. We were not involved in the preparation of any statements or data included in the Report except for Assurance Statement. Our firm applies International Standard on Quality Management and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements. We apply SQC 1 for quality control in assurance and related services.

Reasonable Assurance

A reasonable assurance engagement includes identifying and assessing the risks of material misstatement of the Identified Sustainability Information, whether due to fraud or error, and responding to the assessed risks as required by the circumstances.

As part of our assurance process, a multi-disciplinary team of sustainability and assurance specialists reviewed the disclosures presented within the Report and referenced information, and sampled the disclosures and were reviewed through the company's customised sustainability information management system.

The procedures conducted were based on professional judgement and included inquiries, observation of processes performed, inspection of documents, evaluation of quantification methods and reporting policies, analytical procedures, and reconciliation with underlying records.

Given the circumstances of the engagement, in executing the procedures outlined above, we:

- Obtained an understanding of the identified sustainability information and related disclosures;
- Acquired knowledge of the assessment criteria and assessed their adequacy for evaluating and/or measuring the identified sustainability information;
- Conducted inquiries with Company's management, including the environment team, compliance team, human resources team, and other relevant personnel responsible for preparing the Report;
- Developed an understanding and performed an evaluation of the design of key systems, processes, and controls for recording, processing, and reporting the identified sustainability information at the corporate office and other locations.
- Based on our understanding and the potential risks of material misstatement in the identified sustainability information, we determined the nature, timing, and extent of further procedures.
- We tested the Company's process for compiling sustainability information by comparing or reconciling it with the underlying records.
- We verified the consolidation of data from various plants and offices on a sample basis within the reporting boundary to ensure the completeness of the reported data.

We believe that the evidence we have gathered is both sufficient and appropriate to provide a basis for our reasonable assurance opinion.

Our Responsibility

Our responsibility is to express a reasonable assurance conclusion on the identified sustainability indicators, based on the procedures we have performed and the evidence we have obtained. We conducted our engagement in accordance with the International Standard for Assurance Engagements other than Audits or Reviews of Historical Financial Information ('ISAE 3000'), and the terms of reference for this engagement as agreed with the Company. Those standards require that we plan and perform our engagement to obtain reasonable assurance about whether, in all material respects, the Subject Matter is presented in accordance with the Criteria, and to issue a report. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement, whether due to fraud or error.

Reasonable Assurance Opinion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the company's identified sustainability criteria as per BRSR core framework for the financial year ended 31st March 2025 are not prepared, in all material respects, in accordance with the Reporting Criteria.

Inherent Limitations

We have relied on the information, documents, records, data, and explanations provided to us by the Company for the purpose of our review. The assurance scope excludes:

- Any disclosure other than those mentioned in the scope section above
- Data and information outside the defined reporting period
- Data related to Company's financial performance, strategy and other related linkages expressed in the Report.
- The reported financial data are based on audited financial statements issued by the Company's statutory auditors which is subject to a separate audit process. We were not involved in the review of financial data from the Annual Report.
- The Company's statements that describe expression of opinion, belief, aspiration, expectation, forward looking statements provided by the Company and assertions related to Intellectual Property Rights and other competitive issues.
- Mapping of the Report with reporting frameworks other than those mentioned in Reporting Criteria above.
- While we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls.
- The procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.
