26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk, along-with its financial implications, as per the following format:

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate.	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Customer Health & Safety	Opportunity	Prioritising customer health and safety enhances patient care quality, ensures regulatory compliance, and builds patient trust and loyalty. Implementing rigorous health and safety protocols can differentiate Medanta as a leader in patient care, attract new patients, and reduce liability risks	-	Positive
2	Effluents & Waste Management	Risk	Improper disposal of effluent and biomedical waste, both hazardous and non-hazardous, poses significant regulatory and environmental risks, affecting the safety of people and the environment.	Medanta has implemented a waste management policy that complies with guidelines from state Pollution Control Boards and Biomedical Waste Management Rules. Regular training programmes for healthcare workers ensure proper waste management and disposal practices. Additionally, the Company's hospitals conduct a weekly Infection Control Audit to consistently assess and optimise their strategies, safeguarding their teams, patients, and the community from potential health risks	Negative
3	Governance	Opportunity	Strong governance enhances compliance, ethical practices, and transparency, building stakeholder trust and ensuring long-term strategic alignment. It fosters a culture of accountability and integrity, attracting investors, improving financial stability, and enhancing Medanta's reputation.	-	Positive
4	Energy Management	Opportunity	Inefficient energy management can lead to higher operational costs, exposure to energy price volatility, and increased greenhouse gas emissions, resulting in regulatory penalties and reputational harm. Dependence on nonrenewable energy sources can also pose long-term sustainability risks. By implementing measures to reduce energy consumption and transitioning to cleaner energy sources, the Company aims to mitigate our impact on the environment and promote sustainability.	Developing procedure for energy conservation measures, with the primary goal of achieving a cleaner and reduced energy footprint for the organisation. Installing solar power plants at Medanta hospitals to reduce reliance on non-renewable energy sources	Positive

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate.	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5	Water Management	Opportunity	Poor water management can result in high utility costs, vulnerability to water scarcity, and non-compliance with water use regulations, leading to operational disruptions, regulatory fines, and negative public perception. Water scarcity can directly impact hospital operations and patient care.	The company aims to achieve water neutrality and positivity by efficiently managing water resources, utilising water treatment plants, and offsetting usage through sustainable initiatives. Medanta hospitals in Gurugram, Lucknow, and Patna adhere to a ZeroLiquid Discharge (ZLD) system, which is highly beneficial as it ensures that no wastewater is discharged into the environment	Positive
6	Training and Education	Opportunity	Investing in comprehensive training and education programmes enhances employee skills, ensures regulatory compliance, and improves patient care quality. It boosts employee morale, productivity, and retention, creating a knowledgeable and motivated workforce that enhances Medanta's operational effectiveness.	-	Positive
7	Emission Management	Risk	Failure to manage emissions can result in higher greenhouse gas (GHG) emissions, regulatory penalties, and adverse health effects on the community and staff, leading to reputational damage and increased operational costs. Poor emissions management can also contribute to climate change, affecting long-term sustainability.	The Company monitors its Scope 1 and Scope 2 GHG emissions, ensuring an understanding and management of its direct and indirect emissions. Medanta is committed to increasing its use of renewable energy sources, thereby aiming to significantly reduce its reliance on non-renewable energy	Negative
8	Occupational Health and Safety	Risk	Inadequate safety measures pose risks such as staff health issues, occupational hazards (biological, chemical, physical, psychosocial), radiation hazards, fire and life safety threats, hazardous waste handling, and medical equipment safety concerns	The Company has obtained all necessary certifications from relevant regulatory bodies, including Joint Commission International (JCI at Gurugram Facility) and National Accreditation Board for Hospitals and Healthcare Providers (NABH) accreditations for its hospitals. Comprehensive policies and procedures are in place to address and mitigate safety risks	Negative
9	Cyber Security	Risk	The nature of the healthcare business involves handling sensitive patient health data. Any theft or leakage of this data could result in significant risks to the Company's reputation and operations.	A data security management plan, including an IT policy, has been implemented to protect sensitive patient data from unauthorised access and breaches, ensuring compliance with relevant regulations and maintaining patient trust.	Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate.	Financial implications of the risk or opportunity (Indicate positive or negative implications)
10	Economic Performance	Opportunity	Medanta implements robust financial planning strategies to anticipate economic fluctuations and uncertainties, ensuring adequate financial reserves. In addition, Medanta is committed to expand its presence in underserved markets of India and build a longterm sustainable model	-	Positive
11	Employment	Opportunity	India faces persistent employment challenges due to its growing population. By expanding their business, Medanta can create numerous new jobs, both directly and indirectly, contributing to economic growth.	-	Positive
12	Risk Management	Risk	Ineffective risk management can result in unmitigated financial, operational, and reputational risks, including data breaches, legal penalties, and business disruptions. It can also lead to poor crisis response and recovery, impacting long-term sustainability	Conducting thorough risk assessments involving regular evaluations to identify potential threats and vulnerabilities, enabling proactive risk mitigation. Developing contingency plans and crafting robust response protocols to effectively manage and address crises as they occur.	Negative
13	Access to Healthcare	Opportunity	There is a significant lack of access to quality healthcare across India, creating a substantial opportunity to serve underserved markets with high-quality healthcare services	-	Positive
14	Labour Management	Risk	Poor labour management can lead to high turnover rates, low employee morale, and noncompliance with labour laws and regulations, resulting in legal liabilities and operational disruptions. It can also impact patient care quality and organisational efficiency	Development of labour management plans, providing salary slips, PF, ESIC and ensuring overtime is duly paid to labour through inspection of the contractors who provide labour	Negative
15	Diversity & Equal Opportunity	Opportunity	Diverse talents and perspectives enhance creativity, innovation, and problem-solving. Inclusive workplaces promote employee satisfaction, engagement, and better patient care. Diverse teams can serve diverse needs of their patients and customers, resulting in improved patient care and satisfaction	-	Positive
16	Community Development	Opportunity	Engaging in community development strengthens relationships with local stakeholders, enhances Medanta's reputation, and fosters a supportive environment for growth. It can lead to collaborative opportunities, increased patient loyalty, and positive social impact, aligning the hospital's goals with community needs and expectations	-	Positive

Leadership Indicators

1. Awareness programmes conducted for value chain partners on any of the principles during the financial year.

The Company has implemented a comprehensive training programme for outsourced employees working on its premises. This programme is carefully designed and structured to provide on-the-ground training in line with a well-defined calendar, ensuring systematic and consistent coverage of all aspects. Medanta has not introduced any dedicated training initiatives for its value chain partners.

2. Does the entity have processes in place to avoid / manage conflicts of interest involving members of the Board? (Yes / No) If Yes, provide details of the same.

Medanta is deeply committed to conducting their business operations in strict adherence to all relevant laws and the highest ethical standards. Central to this commitment is the implementation of the Company's comprehensive "Code of Conduct for Board Members, Key Managerial Personnel, and Senior Management. This code serves as a cornerstone of their corporate governance framework, embodying the principles and practices that guide ethical behavior and responsible business conduct across the organisation.

The primary objective of this Code of Conduct is to establish clear guidelines that deter misconduct and promote integrity at every level of the Company. It outlines the expected standards of behavior for board members, key managerial personnel, and senior management, emphasising transparency, accountability, and fairness in all business dealings. By adhering to these principles, Medanta aims to foster a culture of trust and ethical decision-making, thereby safeguarding the interests of all stakeholders.

For detailed insights into the Company's governance practices and the specific provisions of the Code of Conduct, interested parties can access the document directly through the following link: https://www.medanta.org/investor_relations/corporate-governance/governance-codes-policies

PRINCIPLE 2

BUSINESSES SHOULD PROVIDE GOODS AND SERVICES IN A MANNER THAT IS SUSTAINABLE AND SAFE

Essential Indicators

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)	Details of improvements in environmental and social impact
R&D	-	-	
Capex	-	0.70%	

2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

As a leading provider of healthcare services, Company is committed to upholding the highest standards of ethical conduct, environmental stewardship, and social responsibility across its entire value chain. Recognising the critical role of our suppliers in delivering quality healthcare, we have developed a comprehensive Supplier Code of Conduct that outlines our expectations for ethical, social, and environmental performance. This framework ensures that our suppliers align with Company's core values and contribute meaningfully to our sustainability goals.

Majority of the medical equipment, pharmaceuticals, and related products are sourced from reputed and compliant vendors who adhere to stringent regulatory and safety standards. Through our Supplier Code of Conduct, we promote responsible sourcing practices that emphasise transparency, human rights, fair labour conditions, and anti-corruption measures.

- b. If yes, what percentage of inputs were sourced sustainably?

Presently, the Company has not carried out any assessment of the % of inputs that were sourced sustainably.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste

Medanta adheres strictly to state pollution control board guidelines and the Bio-Medical Waste Management Rules 2016 (as amended) to ensure the safe handling, recycling, and disposal of various types of waste at the end of their life cycle.

- a. For plastics, including packaging, the housekeeping team collects plastic waste and sends it to designated junk yards with segregated compartments, following state guidelines to minimise environmental impact.
- b. E-waste is managed by the Information Technology and Maintenance staff who collect it and send it to designated stores, which is subsequently disposed. This process is overseen by authorised vendors approved by state pollution control boards to ensure compliance with regulations
- c. Hazardous waste is handled according to the Company's Hazardous Material and Waste Management Manual. Medanta employs strict protocols for safe storage, transport, and disposal, implemented by trained personnel and authorised vendors.
- d. Biomedical waste is managed under a dedicated Bio-Medical Waste Management policy. This includes rigorous procedures for identification, segregation, and safe disposal. The Company submits annual reports to regulatory authorities to demonstrate compliance with Bio-Medical Waste Rules, ensuring that their operations meet the highest standards of safety and environmental responsibility.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same

As the Company is involved in providing healthcare services and does not fall into the category of "Producer" in line with Plastic Waste Management Rules 2022 (as amended), the Extended Producer Responsibility is not applicable for the Company.

Leadership Indicators

1. Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?

Medanta is a healthcare service provider, and Life Cycle Assessments (LCA) are typically designed for manufacturing processes. Therefore, LCA is not directly applicable to the Company's operations.

2. If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products / services, as identified in the Life Cycle Perspective / Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.

Not Applicable, as the Company has not conducted any LCA.

3. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

Not Applicable

4. Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed, as per the following format:

Medanta's operations do not involve the reclamation of products or packaging at the end of their lifecycle. Therefore, this question is not applicable.

5. Reclaimed products and their packaging materials (as percentage of products sold) for each product category.

As the Company is engaged in providing healthcare services, no product packaging is involved. Therefore, this question is not applicable

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

Medanta has implemented a robust occupational health and safety management system that integrates governance, policies, risk assessment, operational controls, training, and reporting mechanisms to ensure a safe working environment across all facilities. Oversight is provided by a multi-disciplinary Hospital Safety Committee, chaired by the Chairperson which meets bi-monthly to review performance, incidents, and audits. Comprehensive policies and departmental manuals cover areas such as radiation, fire, hazardous materials, and biomedical waste safety. Mandatory health screening, immunisation protocols, and occupational risk assessments are in place, supported by SOPs for hazard mitigation and emergency response. Regular training, awareness programmes, and incident reporting systems promote safety culture, while systematic record management and periodic policy reviews ensure continual improvement.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Company follows a structured approach to hazard identification and risk assessment through annual reviews of departmental risk registers and regular proactive evaluations such as Hazard Vulnerability Analysis, infection control checks, and WHO Hospital Safety Index assessments. Ad-hoc reporting mechanisms enable staff to flag unforeseen hazards, while incident reporting systems capture near misses and adverse events for root cause analysis. Advanced tools like HIRA and FMEA guide risk prioritisation, ensuring effective mitigation and resource allocation. Periodic safety rounds and audits reinforce ongoing vigilance, fostering a culture of continuous improvement in safety and operational effectiveness.

Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Yes/No)

Yes, Medanta has established processes enabling workers to report hazards and remove themselves from unsafe situations. A robust Incident Reporting System encourages prompt reporting of near misses and adverse events, fostering transparency and real-time hazard identification. Employees are empowered to flag risks during routine duties, supported by anonymous reporting channels to ensure concerns can be raised without fear of reprisal.

c. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/No)

Medanta provides all employees with comprehensive non-occupational medical services, including regular health check-ups, prompt medical care, and strict protocols for workplace accidents, infectious disease exposure, and radiation incidents. Benefits include free outpatient consultations, discounted diagnostics and medicines, and hospitalisation coverage under the Company's health insurance plan, which also incorporates schemes such as ESIC.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health and safety practices and working conditions.

Medanta places the highest priority on ensuring the health, safety, and overall working conditions across all its facilities. The Company is actively addressing observations highlighted during recent assessments, demonstrating its commitment to continuous enhancement of safety standards. These assessments were carried out through comprehensive internal safety audits conducted at all five hospitals—evaluating protocols, equipment, and operational procedures to uncover potential risks and areas for improvement. Medanta's proactive strategy emphasises prompt corrective action to resolve identified issues, reinforcing its dedication to maintaining a secure and supportive environment for all stakeholders.

Leadership Indicators

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N)?

Employees	Yes, the Company offers a subsidised accidental coverage to all employees. In the unfortunate event of an employee's demise, nominees are eligible to claim benefits from the Provident Fund (EDLI), ESIC, and LWF
Workers	Not Applicable

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

The Company implements several measures to ensure that all statutory dues are diligently paid by their value chain partners. The company's service contracts explicitly mandate that all value chain partners must clear all statutory dues. This clause is a critical component of their contractual agreements to ensure legal and regulatory compliance. Value chain partners are required to provide supporting documents as evidence of payment of these dues, which are then submitted to the accounts department along with the invoices. The accounts department vets these documents during the invoice processing stage, conducting a thorough review to ensure all statutory payments have been made and properly documented.

PRINCIPLE 4

BUSINESSES SHOULD RESPECT THE INTERESTS OF AND BE RESPONSIVE TO ALL ITS STAKEHOLDERS

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

The Company employs a comprehensive approach to identify key stakeholders, ensuring all parties involved in or affected by their operations are considered. Primary stakeholders include patients, employees, government and regulatory authorities, shareholders, investors, analysts, suppliers, vendors, and the local community. Patients are critical as they use Medanta's services and their feedback shapes service improvements. Employees drive operations and embody Medanta's values, making their engagement vital. Government and regulatory authorities ensure compliance with laws and standards, maintaining the company's credibility. Shareholders, as owners, have a vested interest in Medanta's success and financial performance. Investors provide essential capital for expansion, while analysts offer insights into financial prospects, influencing market perceptions. Suppliers and vendors ensure a reliable supply chain, crucial for operational efficiency. The local community around Medanta's facilities experiences significant social and economic impacts from the company's presence. Engaging with residents and contributing positively to the community builds goodwill. By recognising and engaging these diverse stakeholder groups, Medanta ensures inclusive business strategies, fostering strong, sustainable relationships and a collaborative environment for continued success.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

The Company engages with stakeholders to enhance economic, environmental, and social strategies. Executives and functional heads lead consultations through meetings, surveys, and forums to understand stakeholder concerns. Feedback is regularly collected, summarised, and presented to the Board of Directors and relevant committees. The Board deliberates on this feedback, evaluates its impact, and makes necessary adjustments to the Company's strategies and policies. This continuous dialogue ensures that Medanta's actions align with stakeholder expectations and support their commitment to sustainable growth and development.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, Medanta actively engages in stakeholder consultation to identify and manage environmental and social topics. They regularly consult patients, employees, partners, and community members through surveys and feedback mechanisms. These consultations inform their comprehensive materiality assessments, which prioritise ESG factors. Feedback from patient and employee satisfaction surveys helps refine healthcare services and improve experiences. Community engagement has led to initiatives improving local healthcare infrastructure and sustainability. Medanta also stays aligned with industry standards and regulatory requirements by participating in forums and reviewing reports. Key initiatives based on stakeholder input include reducing Medanta's carbon footprint, enhancing waste management, and adopting energy-efficient technologies. Social responsibility programmes, such as health camps and educational outreach, have been expanded in response to community needs. Through stakeholder consultation, Medanta ensures that their policies and activities address critical concerns and support their sustainability goals.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalised stakeholder groups.

Medanta aims to promote inclusivity by not distinguishing between stakeholders on the basis of marginalisation and vulnerability.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

The Company has established an Employee Grievance Committee that serves as a focal point for addressing any issues or concerns within the workforce. This dedicated committee provides a structured platform where employees can confidently raise grievances, knowing that their voices will be heard, and their concerns given the utmost attention and consideration. By prioritising a supportive and responsive mechanism, the Company empowers its employees and cultivates a culture of open communication, fostering a harmonious and conducive work environment

5. Describe the internal mechanisms in place to redress grievances related to human rights issues?

The Company upholds human rights principles across its operations and partnerships, with a firm commitment to equal employment opportunities and zero tolerance for discrimination of any kind. A structured grievance redressal mechanism enables employees to raise concerns through their HOD or supervisor, with escalation to HR, the grievance committee, and ultimately the CEO/CMD if required. Supporting this framework are key policies, including the Whistleblower Policy, POSH Policy, and Code of Conduct, which address grievances related to human rights issues. These measures reinforce Medanta's dedication to fostering a fair, respectful, and inclusive workplace.

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

To safeguard complainants in cases of discrimination and harassment, Medanta has an Employee Grievance Committee that promptly addresses workforce issues within a structured framework. Under the POSH policy, complaints may be filed in writing within three months of the incident (extendable by another three months if justified) and must be forwarded to the Internal Committee (IC) within 24 hours. Conciliation, excluding monetary settlements, may be requested before an inquiry. If unsuccessful, the IC conducts an inquiry within 90 days, ensuring due process, documentation, and fair opportunity for both parties to present their case. The IC then submits its report to the employer within ten days of completion.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

The Company has embedded human rights considerations into its operations, agreements, and contractual frameworks. A robust Code of Conduct governs ethical behaviour, transparency, and accountability across all levels of the organisation and its partnerships. This Code ensures that all business dealings comply with applicable laws and regulations, including those related to labour rights, fair compensation, and the avoidance of conflicts of interest.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Medanta is committed to the highest standards of waste management. All hospitals are NABH accredited, with Medanta Gurugram also holding JCI accreditation, reflecting strict adherence to quality standards and protocols for managing biomedical, hazardous, and other wastes.

The Company's waste management strategy is comprehensive and multifaceted, encompassing several key areas:

• **Rigorous Compliance and Reporting:**

- Medanta strictly adheres to the Bio-Medical Waste Management Rules 2016, ensuring that all waste is properly segregated, collected, stored, transported, and disposed of in accordance with these regulations.
- Medanta submits detailed annual reports on their Bio-Medical waste management practices to the Pollution Control Board, demonstrating their commitment to transparency and regulatory compliance.

• **Staff Training and Development:**

- Medanta's dedicated staff undergo regular, extensive training sessions to stay updated on the latest waste management protocols and best practices.
- These training programmes are designed to enhance their understanding of safe handling, segregation, and disposal of bio-medical waste, ensuring compliance with all relevant guidelines and standards.

• **Segregation and Safe Disposal:**

- Medanta has implemented robust procedures for the segregation of waste at the source, categorising it into different streams.
- Properly color-coded bins and containers are used throughout their facilities to ensure easy and effective segregation.
- Waste is then collected, stored in secure areas, and transported by authorised personnel to certified disposal facilities, minimising any risk of contamination or environmental harm.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Medanta does not operate in any ecologically sensitive areas. Their operations are located outside of these designated zones, ensuring compliance with environmental regulations, and minimising their ecological footprint.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

During the year, Medanta Lucknow signed a Solar Power Purchase Agreement (PPA) in September 2024 to enhance clean energy sourcing, enabling over 70% of the facility's electricity needs were met through renewable sources between November 2024 and March 2025.

In addition, the Company has implemented multiple energy-efficiency and sustainability initiatives across its facilities. All greenfield hospitals (Gurugram, Lucknow, Patna, and upcoming Noida) use 100% LED lighting, with Indore and Ranchi transitioning from CFLs to LEDs. Plans are underway to introduce sensor-based lighting systems to further reduce electricity consumption. At Lucknow, the use of Variable Frequency Drives (VFDs) has lowered electricity usage. Additionally, the use of electric vehicles for internal transport at Gurugram has cumulatively saved 18,000 metric tonnes of CO₂ emissions.

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Medanta's hospitals have robust disaster preparedness programmes to ensure swift, coordinated response during emergencies. These programmes enable rapid triage, assessment, stabilisation, and definitive care to minimise morbidity and mortality in mass casualty incidents. They include hospital-wide emergency plans, hazard assessments, defined roles and responsibilities, resource and communication management, and guidelines for both internal and external disaster situations, ensuring readiness to protect patients, staff, and the community.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

As a healthcare Company, Medanta does not have any significant adverse impacts to disclose from their value chain in relation to the environment, but they remain committed to adhering to environmental regulations and implementing sustainability initiatives.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

Criteria

5. The criteria used by the Holding Company to prepare the Identified Sustainability Information is summarised below (hereinafter referred to as 'Criteria'):
- Regulation 34(2)(f) of the Securities and Exchange Board of India ("SEBI") (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('LODR Regulations') as amended, read with SEBI Master circular SEBI/HO/CFD/PoD2/CIR/P/0155 dated 11 November 2024 and SEBI Circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2025/42 dated 28 March 2025; and
 - SEBI Circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 dated 20 December 2024 read with BRSR Core Reporting Standard formulated by Industry Standards Forum.

Management's Responsibilities

6. The Holding Company's management is responsible for selecting or establishing suitable criteria for preparing the Identified Sustainability Information, taking into account applicable laws and regulations, if any, related to reporting on the Identified Sustainability Information, identification of key aspects, engagement with stakeholders, content, preparation and presentation of the Identified Sustainability Information in accordance with the Criteria. This responsibility includes design, implementation and maintenance of internal control relevant to the preparation of the BRSR and the measurement of Identified Sustainability Information, which is free from material misstatement, whether due to fraud or error.

Inherent limitations

7. The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measures and measurement techniques and can affect comparability between entities.

Practitioner's Independence and Quality Control

8. We have complied with the independence and other ethical requirements of International Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants ('IESBA'), which is founded on fundamental principles of integrity, objectivity, professional competence, and due care, confidentiality and professional behaviour.
9. Our firm applies International Standard on Quality Management (ISQM) 1, "Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements" which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Practitioner's Responsibility

10. Our responsibility is to express a reasonable assurance in the form of an opinion on the Identified Sustainability Information based on the procedures we have performed and evidence we have obtained. We conducted our reasonable assurance engagement in accordance with the International Standard on Assurance Engagements (ISAE) 3000 (Revised), "Assurance Engagements other than Audits or Reviews of Historical Financial Information ('ISAE 3000 (Revised)') issued by the International Auditing and Assurance Standards Board ('IAASB'). This standard requires that we plan and perform our engagement to obtain reasonable assurance about whether the Identified Sustainability Information is prepared, in all material respects, in accordance with the Criteria.
11. A reasonable assurance engagement involves assessing the suitability in the circumstances of the Company's use of the Criteria as the basis for the preparation of the Identified Sustainability Information, assessing the risks of material misstatement of the Identified Sustainability Information whether due to fraud or error, responding to the assessed risks as necessary in the circumstances and evaluating the overall presentation of the Identified Sustainability Information.
12. The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, evaluating the appropriateness of quantification methods and reporting policies, analytical procedures and agreeing or reconciling with underlying records.
13. Given the circumstances of the engagement, in performing the procedures listed above, we:
 - a. Conducted physical visits at Global Health Limited's facilities located at:-
 - i. Gurugram,
 - ii. Lucknow and,
 - iii. Patnafor process observation and verification;
 - b. Interviewed senior executives at the aforementioned locations to understand the operational and functional processes, pedagogies and methodologies in place at Global Health Limited;
 - c. Undertook discussions at the corporate office for data and document verification and understand the reporting process, governance, systems and controls in place during the reporting period;

- d. Reviewed the records and relevant documentation including information from audited financial statements or statutory reports submitted by the Company to support relevant performance disclosures within our scope;
 - e. Evaluated the suitability and application of the Criteria and that the Criteria have been applied appropriately to the subject matter;
 - f. Selected key parameters and representative sampling, based on statistical audit sampling tables and agreeing claims to source information to check accuracy and completeness of claims such as source data, meter data, etc;
 - g. Re-performed calculations to check accuracy of claims;
 - h. Reviewed data from independent sources, wherever available;
 - i. Reviewed data, information about sustainability performance indicators and statements in the report;
 - j. Reviewed and verified information / data as per the Criteria;
 - k. Reviewed the accuracy, transparency and completeness of the information/ data provided.
14. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our reasonable assurance opinion.

Exclusions

15. Our reasonable assurance engagement scope excludes the following and therefore we do not express an opinion on the same:
- a. Aspects of the BRSR and data/information (qualitative or quantitative) other than the Identified Sustainability Information
 - b. Operations of the Group other than those mentioned in Identified Sustainability Information section above
 - c. Data and information outside the defined reporting period
 - d. Data related to Group's financial performance, strategy and other related linkages expressed in Identified Sustainability Information.
 - e. The Group's statements that describe expression of opinion, belief, aspiration, expectation, forward looking statements provided by the Group and assertions related to Intellectual Property Rights and other competitive issues.
 - f. Mapping of the Identified Sustainability Information with reporting frameworks other than those mentioned in Criteria above.
 - g. While we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls.
 - h. The procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

Opinion

16. Based on the procedures we have performed and the evidence we have obtained, the Identified Sustainability Information included in the BRSR for the financial year ended 31 March 2025, is prepared in all material respects, in accordance with the Criteria.
